UNDERGRADUATE COURSES

ISSUE FOR THE SESSION OF
1947-1948

APRIL 1947
No Bulletin of the Carola Woerishoffer Department of Social Economy and Social Research was issued for 1947-48.
Bryn Mawr College was founded by Dr. Joseph Taylor of Burlington, New Jersey. During his lifetime the site of the College at Bryn Mawr, Pennsylvania, eleven miles west of Philadelphia, was purchased and the buildings were begun. At his death in January, 1880, he left the greater part of his estate for the maintenance of this institution of higher education for women. In 1880 the College was incorporated under the laws of the Commonwealth of Pennsylvania and was invested with the power to confer degrees. In 1883 the Trustees issued a circular of information. In 1884 Dr. James E. Rhoads was elected President of the College and Dr. M. Carey Thomas was elected Dean of the Faculty. Plans were then matured and academic appointments were made. In the autumn of 1885 the College began its first academic year. On the resignation of President Rhoads in 1893 Dean Thomas was elected to the presidency, an office she held till her retirement in 1922. President Marion Edwards Park succeeded President Thomas in 1922 and retired in 1942. President Katharine Elizabeth McBride took office on July 1, 1942.

The College believes in the value of small classes and limits the enrollment of undergraduates to about five hundred and fifty and of graduate students to about one hundred and fifty.

Bryn Mawr College confers the degrees of Bachelor of Arts, Master of Arts, Master of Social Service, and Doctor of Philosophy.

Graduate studies are pursued in all fully organized departments of Bryn Mawr College. For information consult the Calendar of Graduate Courses.

ADMISSION

Admission to Bryn Mawr College is based upon a student's record in secondary school, her principal's recommendation, her scores in the tests given by the College Entrance Examination Board, and other information secured by the College concerning her health, character, and ability. The College reserves the right in all cases to determine which candidates shall be admitted. The great majority of students enter the College in the autumn, but the Committee on Admissions will consider applications from a limited number of transfer students for admission in February. All candidates are asked to come, if possible, to the College for a personal interview with the Director of Admissions. A candidate who has questions of any sort about her preparation should feel free to write to the Director of Admissions at any time.

An application, accompanied by a registration fee of ten dollars, payable to Bryn Mawr College, should be sent to the Director of Admissions as soon as the candidate's proposed year of entrance is determined. This fee is not refunded if the candidate later withdraws her name or does not succeed in gaining admission. It may, however, be transferred to a later year if a request is received before October first of the year of entry originally planned. Registration does not insure admission to the College. Application forms will be sent to each candidate who is registered for the following year. These forms must be returned not later than April fifteenth. Forms for the official transcript of the school record and for the principal's recommendation will be sent by the College to the schools. Health forms will be mailed to all candidates.

Program of Secondary School Studies

Candidates are expected to complete a four-year secondary school course which includes work in English, foreign languages, mathematics, history, and science. They are urged to plan their program of studies as early as possible in their career in secondary school. Those who cannot meet in full the requirements for admission to the College should consult the Director of Admissions for special consideration and advice.

The term “unit” is used to describe work involving four or five recitations a week for the entire school year. Sixteen units are required for admission, as follows:
Subjects | Units
--- | ---
English (four years' study) | 4
Foreign Languages | 6
  - Latin | 3 or 4
  - French or German or Greek | 3 or 2
Mathematics | 3
  - Algebra | 2
  - Geometry | 1
Science (Chemistry or Physics or Biology or, with the approval of the Committee on Admissions, advanced Mathematics) | 1
History (American or Ancient or English or European or any other course approved by the Committee on Admissions) | 1
Elective (History of Art, History and Appreciation of Music, Biblical Literature, Italian, Spanish, or further work in foreign languages, Mathematics, Science, or History) | 1

Advanced Standing

Candidates who wish to enter the College with advanced standing may offer themselves for examination in certain subjects in addition to the sixteen units required for matriculation. The passing of such an examination entitles the student to college credit. For a list of the subjects and for the arrangements for these examinations see page 41.

Entrance Tests

All candidates must take the Scholastic Aptitude Test and three of the Achievement Tests given by the College Entrance Examination Board. The Scholastic Aptitude Test should be taken in December or in April of the senior year in secondary school. The three Achievement Tests should be taken in April of the senior year.

The Scholastic Aptitude Test (three hours) consists of a verbal and a mathematical section. There are no options in it and it must be taken by all candidates.

The Achievement Tests (three hours) are ten in number: English, Latin, French, German, Spanish, Biology, Chemistry, Physics, Social Studies, and Spatial Relations. Each candidate for admission to Bryn Mawr College takes three tests: English (an "essay test"); a foreign language; and either Social Studies or one of the sciences.

The Scholastic Aptitude and Achievement Tests are to be taken without special preparation. They are so constructed that ample
opportunity is allowed for candidates to secure good scores on the basis of work well done during the school year.

**APPLICATION FOR THE COLLEGE ENTRANCE EXAMINATION BOARD TESTS**

For application forms and further information address the College Entrance Examination Board, Post Office Box 592, Princeton, New Jersey.

There is a fee of nine dollars for registration for both the Scholastic Aptitude Test and the Achievement Tests, of five dollars for the Scholastic Aptitude Test alone, and of six dollars for the Achievement Tests alone. This fee must accompany each application and may be remitted by postal or express money order or by check.

All applications should be filed at the earliest possible date. Those for the April tests must reach the offices of the Board:

For examinations east of or on the Mississippi River on or before March 13, 1948.

For examinations elsewhere in the United States, in Canada, or in Mexico on or before March 6, 1948.

For examinations outside the United States, Canada, and Mexico on or before February 7, 1948.

If a candidate fails to obtain the application form, the examination fee will be accepted as a substitute provided it arrives by the specified date and is accompanied by a memorandum containing the name and address of the candidate, her choice of center, the college to which her report is to be sent, and the test or tests she wishes to take. Applications for examination received later than the dates specified will be accepted when it is possible to arrange for the examination, but only upon the payment of an additional fee of three dollars.

A list of examination centers is published annually early in January. The candidate must designate in her application the center to which she will go for examination. Additional centers will be arranged for the convenience of candidates one hundred miles or more from the nearest established center. Requests for the organization of special centers must reach the Board before February fifteenth.

**ADMISSION OF TRANSFER STUDENTS**

Candidates are admitted on transfer from certain approved colleges and universities where the curricula correspond to the curriculum of Bryn Mawr College. They must present credits
equal to the Bryn Mawr requirements for admission and the College Board tests required of regularly matriculated freshmen. They must also present a certificate of honorable dismissal and an official statement that they have studied in regular college classes for one academic year, that they have passed examinations covering at least one year of work in a regular college course, and that they are in good standing in the institution from which they transfer. No credit will be given for work done elsewhere until the student has completed successfully a year's work at Bryn Mawr College. To qualify for the A.B. degree transfer students must have studied at Bryn Mawr for at least two years. Students of other colleges or universities who have outstanding conditions or have otherwise failed to meet prescribed standards of academic work, or have been put on probation or suspended or excluded, will in no circumstances be admitted to Bryn Mawr College. Such students are not permitted to cancel their record elsewhere, offer the Bryn Mawr requirements for matriculation, and enter the College as first year students.

"Hearers"

Women over twenty-five years of age are admitted as "hearers" to undergraduate courses without a matriculation examination, but they must furnish proof that they have at some time pursued the studies required for matriculation. Hearers are clearly differentiated from regularly matriculated students and must obtain permission from each instructor to attend classes, laboratories, and examinations. They are not eligible for degrees and may receive only such certificates of collegiate study as their instructors see fit to give. They are charged the full tuition fee. No other special students are admitted to undergraduate courses at Bryn Mawr College.
RESIDENCE AND EXPENSES

Residence

Halls of Residence. There are nine undergraduate halls of residence: Denbigh Hall, Merion Hall, Pembroke Hall East and West, James E. Rhoads Hall North and South, Rockefeller Hall, Wyndham and East House, and Radnor, the graduate hall. Plans and descriptions of these, with full information regarding the charges for rooms, may be obtained from the Director of Admissions. A resident warden is in charge of each hall. Each hall has its separate kitchen and dining-room except Pembroke and Rhoads each of which has a common kitchen and dining-room for the two wings. The first seven halls provide a separate room for each student. Each room is furnished with a bed, bureau, table-desk, straight chair, desk chair, and bookcase, but students supply their own rugs, curtains, and towels. All necessary service is supplied by the College. All rooms are adequately heated by steam heat controlled by a thermostat, but there are open fireplaces in many studies and single rooms. Because of the danger of infectious diseases personal laundry may be done only by laundries or laundresses recommended by the College.

Language Houses. There are three "language houses," in which students get practice in spoken French, German, and Spanish: the French House, with accommodations for eighteen students, occupies Wyndham; the German House and the Spanish House usually occupy a floor of one of the larger dormitories. Each house has its dining-room or alcove where breakfast and dinner are served; but lunch is provided in the larger halls of residence with the other students. Students living in these houses are under the supervision of the French, German, and Spanish departments respectively, and applications to live in the houses must be approved by the department concerned.

Application for Residence. A student in residence, who wishes to apply for a room for the following year, must make an application for a room and accompany it with an application fee of $10. This fee will be credited against the residence charge if the room assigned is occupied by the applicant; it will not be refunded in any circumstances. Each student enrolled for the following year must make an additional deposit of $40 not later than July fifteenth. This deposit will also be credited against the residence charge. It will be returned if the student withdraws from College before July fifteenth; it will not be returned if she withdraws later than July fifteenth.

New students applying for residence will be billed $50 early in the summer. This $50 will be credited against the residence
charge, but it will not be returned in case of withdrawal after August first.

An applicant who, after having reserved a room, fails to cancel her reservation by September first (even though she does not occupy the room at all or vacates it during the college year) prevents some other student from obtaining accommodation and consequently admission to the College. Therefore, unless formal notice of withdrawal of application for the ensuing academic year is received by the Dean of the College by September first, the applicant is responsible for the residence charge (based upon the room assigned to her) for the whole year, or if a definite room assignment has not been made, the applicant is responsible for the minimum residence charge of $650; subject to an allowance for the cost of food if absent for more than six consecutive weeks, and a further allowance if the College re-rents the room to a student not previously resident. The applicant is not entitled to dispose of the room that she leaves vacant.

**Non-Resident Students.** For students living with their families in Philadelphia and the vicinity there are club-rooms in Goodhart Hall and in the Library, and such students have the use of the large Common Room in Goodhart Hall. Non-resident students are liable in whole or in part for all undergraduate fees except those for residence in the halls. The non-resident infirmary fee of $5 entitles them to medical examination and consultation with the College Physician.

**Expenses: Tuition and Residence**

**Tuition.** The tuition fee for all undergraduate students, resident and non-resident, and for hearers is $550 a year. This fee is payable October 1st. No reduction or refund of the tuition fee can be made on account of absence, illness, dismissal, or for any other reason.

The average cost of teaching each undergraduate student is about $1000 a year. The difference must be met from the endowment funds of the College and from private gifts. Voluntary contributions from parents able and willing to pay the additional sum or part of it, will be used for scholarships for students unable to pay the regular tuition fee.

**Residence.** The charge for residence is $650, $750, or $850 according to the size and location of the student's room or rooms. The residence fees are payable as follows:

- $650 — payable $425 in October, $225 in February
- 750 — payable 525 in October, 225 in February
- 850 — payable 625 in October, 225 in February
NOTICE OF INCREASED FEES TO BE INCLUDED IN NEXT CATALOGUE

Beginning in September 1948 the fees for undergraduate students will be:

Tuition          $650
Residence, including infirmary fee  $800 to $1000
Minimum total fee          $1450
Maximum total fee, with room and sitting room $1650

February 18, 1948
Reduction of Charges for Absence from College. In case of illness or withdrawal from the College for a period of six consecutive weeks or longer there will be a reduction in the charge for residence (representing the reduced expense to the College for food), provided written notice is given to the Dean of the College and the Comptroller at the time of withdrawal, or, in the case of illness at home, as soon as possible. Verbal notice to wardens or instructors is not sufficient to secure this reduction.

Residence during Vacations. A student who wishes to remain at the College during the Christmas and spring vacations should apply to the warden of her hall for information in regard to rooms and rates. During the Christmas vacation the halls of residence are closed but individual students may make arrangements for accommodations near the college campus; these arrangements are subject to the approval of the College. During the spring vacation one hall of residence is kept open and undergraduate students may occupy rooms in it at a fixed rate. Students remaining during any part of the Christmas or spring vacations in Bryn Mawr, or in the immediate neighborhood, not in their own homes, are required to take advantage of the arrangements made by the College and will be charged according to the length of stay. A student not going to her own home is required to inform the warden of her intention to spend the vacation elsewhere and to register her address with her warden.

Summary of Major Expenses:
For resident students, tuition and residence: $1200, $1300, or $1400 according to the type of accommodation.
For non-resident students, tuition: $550.

Bills will be rendered by the Comptroller on the first day of each semester. Students whose fees and charges are not paid before November first in the first semester and before March first in the second are not permitted to continue in residence or in attendance on their classes.
The Tuition Plan

Since some parents prefer to pay tuition and other college fees in equal monthly instalments during the college year, the College offers this convenience under "The Tuition Plan, Inc., New York City." The cost is four per cent greater than when payment is made in cash. If the plan of payment in equal monthly instalments is preferred, notification should be sent to the Comptroller of the College by September fifteenth. The Tuition Plan contract accompanied by the College bill will be forwarded by the Tuition Plan to parent or guardian between October first and fifteenth.
GENERAL REGULATIONS

Residence in the college buildings is required of all undergraduate students except those who live with their families in Philadelphia or the vicinity.

Every student must register with the Comptroller at the beginning of each college year. This regulation must be complied with before 8.45 A. M. of the first day of lectures.

Freshmen are asked to come into residence four days before the College is opened to returning students. They are received by the wardens of the various halls and by a committee of upper classmen. The President and the Dean of the College wish to interview new students during these first few days. The Dean of Freshmen must see all freshmen in the course of these four days to advise them on their registration. Furthermore, during this time the new students are made familiar with the library, take their tests and physical examination, and become acquainted with the College.

The Dean of the College is academic adviser to all undergraduates of the three upper classes. Upper classmen will also consult with the heads of the departments in which they elect to do their major work. Students are urged to plan their work with reference to the schedule of classes and laboratories in order to avoid any conflict of hours which might prevent them from electing courses that they need.

The Students' Association for Self-Government, of which all undergraduates are members, has jurisdiction over the conduct of the students in all matters except those which are purely academic or which affect living arrangements.

The College reserves the right to exclude at any time any student whose conduct or academic work is unsatisfactory. In such cases the fees due or already paid to the College will be neither refunded nor remitted in whole or in part.

Integrity of all work is demanded of every student. In an examination or quiz no student shall hold any communication with another student or give or receive any assistance. Printed rules governing written work are handed to all entering students; a signed certificate that they have read and understood them is required. Any infraction of these rules, regardless of motive, or any action contrary to their spirit constitutes an offense.

Regular attendance at classes is expected.
HEALTH

Every entering student is required to file at the office of the Director of Admissions, on a blank to be secured from the College, a report of a recent medical examination, filled out and signed by a physician.

Every entering student must file a physician’s certificate stating that she has been vaccinated against smallpox during the year preceding her entrance to College and that she exhibited a typical or immune reaction to this vaccination. Students who do not certify to vaccination at entrance will be vaccinated by the College Physician. A fee of five dollars will be charged. There is no exception to this rule.

Every student must file a certificate stating that her eyes have been examined by an oculist within six months before entrance and again before the beginning of her junior year. Failure to comply with the above rule entails an examination by one of the college consultants for which the student will be charged as a private patient by the ophthalmologist who makes the examination.

At the beginning of each year every student has a chest X-ray. These X-rays are made with paper plates, and a fee of about two dollars is charged for each. If necessary, the paper plate is checked with stereoscopic films, the fee for which is twenty dollars. Any student who has had a chest X-ray within six months preceding the opening of any year will be excused from this procedure, provided a complete report has been filed with the College before September fifteenth of the year in question.

Every undergraduate is examined each year by the Physician of the College and at intervals by the Director of Physical Education with reference to physical development, strength of heart and lungs, and general health. All students are urged to take some out-of-door exercise in addition to their periods of physical training. Any student who at the time of the examination or at any time during the year is not in good health is placed on the health supervision list. She is required to follow the special regime prescribed and her extra-curricular activities may be limited.

The College Physician is in her office in the college infirmary daily and may be consulted by the students without charge. Specialists practising in Bryn Mawr and Philadelphia serve as consulting physicians to the College. The fees of the consulting physicians and surgeons and other specialists recommended by the College will be furnished on request. The infirmary is open when college is in session and during the spring vacation. It is closed during the Christmas vacation.

The infirmary fee of twenty-five dollars paid by each resident student entitles her to free consultation with the college physicians and to treatment in the college dispensary. It also entitles her to
be cared for in the infirmary for seven days (not necessarily consecutive) during the year and to attendance by the college physicians during this time and to nursing, provided her illness is not contagious and is not sufficiently serious to require the services of a special nurse. The fee for each day in the infirmary after the seven-day period is six dollars. In case of contagious disease the student must meet or share the expense of special nursing.

All communications concerning the health of students from parents and guardians, outside physicians and others, should be addressed to the Dean of the College. Any student who becomes ill when absent from the College is asked to notify the Dean of the College immediately and to present a signed statement from her physician when she returns.

The College reserves the right, if the parents or guardians cannot be reached, to make decisions concerning operations or other matters of health.

The College has arranged with the Connecticut General Life Insurance Company of Hartford, Connecticut, for health insurance, known as the Students' Reimbursement Plan. Under this plan individual policies are issued to the students who subscribe which provide for reimbursement, within specified limits, for the medical, surgical, and hospitalization expenses in cases of operation and prolonged illness. The cost of such a policy is fifteen dollars a year and includes protection during all vacations.
THE LIBRARY

The Library of Bryn Mawr College contains 197,500 volumes and over 10,000 pamphlets. Seven hundred periodicals and serial publications in English, French, German, Italian, Spanish, and Swedish are currently received. The basic collection is contained in the M. Carey Thomas Library. It supplies most of the needs of the faculty and students. The seminary rooms of each department contain books needed for graduate study. Dalton Hall contains the departmental libraries in Biology, Mathematics, and Physics; Park Hall the departmental libraries in Chemistry and Geology. A special librarian is in charge of these libraries of scientific books. Each of the halls of residence is provided with a small collection of books, for the most part duplicating those on reserve in the main library. The "language houses" contain special collections for recreational reading.

The privilege of drawing books from any of these collections (with the exception of those books that are on reserve) is granted to all registered students. There is free access to the stacks. The library is open daily, except Sunday, from 8 A. M. to 10 P. M. and on Sunday from 9 A. M. to 10 P. M.

Students have the privilege of using the Library at Haverford College. The Bryn Mawr catalogue includes the "author cards" of books at Haverford and facilitates the exchange of books between the two institutions.

The libraries in Philadelphia are generous in making their large resources available to students. A Union Catalogue located in the Fine Arts Building at the University of Pennsylvania facilitates use of all libraries in the community. The following libraries may be used by students provided with a letter of introduction from the Librarian of Bryn Mawr College: the Library of the University of Pennsylvania; the Library of the Historical Society of Pennsylvania; the Library of the American Philosophical Society; the Library of the Academy of Natural Sciences; the Library of the College of Physicians; the Free Library of Philadelphia; the Library Company of Philadelphia (to which Bryn Mawr College subscribes).
CURRICULUM

Major courses of study are offered in Biology, Chemistry, Classical Archaeology, Economics and Politics, English, French, Geology, German, Greek, History, History of Art, Italian, Latin, Mathematics, Philosophy, Physics, Psychology, Sociology and Social Economy, and Spanish. Elective courses are offered in Education, the History of Religion, Music, and Russian, as well as in the major departments.

Every candidate for the degree of Bachelor of Arts chooses in the spring of her sophomore year a major subject of study. This is combined with work in allied subjects. The object of this system is to give to the student the thorough training in method and the familiarity with the literature of a subject which constitute the necessary foundation for work of an advanced character. For the student who intends to pursue graduate study and research in her chosen field the groundwork is thus laid; and to other students the discipline provided by continuity of training is an advantage in any field of activity.

During the first three years of college four full courses constitute the normal course load for each student (for definition of course, see page 39). No students other than seniors should plan to carry less than four full courses, but any student whose work is satisfactory may plan to take four and one-half courses if she so desires.

Four required courses are intended to insure a more liberal training than could be obtained were studies elected without any restriction. The required course in English Composition is designed to train the student to express herself clearly and correctly and to gather, organize, and present material for reports and papers, thus preparing her for advanced work in her major subject. The required course in Literature, besides serving as a foundation for further study of the subject, gives to the student majoring in other subjects a general view of one field of literature. The required course in Science gives to the student majoring in one of the humanities or social sciences an introduction to the kind of discipline received by the scientific student. The required course in Philosophy is an introduction to the study of ideas and the history of thought.

Except in cases where a prerequisite is indicated, first year courses may be elected by any student; but more advanced courses are open only to students who fulfill prerequisites.

Preparation for a Final Examination in the major field requires the student to review and correlate the material covered in her major courses and (where it seems desirable) in allied courses, and to carry on independent reading selected to round out her knowledge of her field as a whole, thus giving her a deeper insight into
fundamental principles and general concepts. In part of the examination emphasis is laid upon a broad general knowledge of the subject. The student is expected to devote approximately ten hours a week for one year to the preparation for this examination. Most of this preparation is done in the senior year but part may be done, on the advice of the department, during the preceding summer or in the junior year. With the approval of the major department one-third of this preparation may be devoted to an allied subject and one part of the examination may be set by an allied department.

Honors work is of a more advanced character than that done in the regular courses and requires greater initiative and power of organization than is usually expected of undergraduate students. No student may elect to work for honors without the recommendation of her department and the approval of the Committee on the Curriculum. Reports giving to the student an opportunity to test her ability in the selection and interpretation of source-material are usually required. These special studies may be carried on in connection with an Advanced course or they may be planned for individual students. Such work may be undertaken only after the completion of two years of study in the major subject.

The Plan for Co-ordination in the Teaching of the Sciences offers special training in borderline subjects. A gift from the Carnegie Corporation enables the College to award scholarships to qualified students in such fields as biophysics, geophysics, and geochemistry. As such work demands a thorough knowledge of the fundamentals of at least two sciences, it is often impossible for students to include all the desired courses in four undergraduate years; these scholarships are intended primarily to provide for an additional year (mainly in the Undergraduate School) so that the student may be ready, at the end of five years, to begin graduate work in her chosen correlated fields. Students entering Bryn Mawr who wish to work in science should consider the advantages of this plan and should consult with the heads of the departments in which their special interests lie as early in their college career as possible. In addition to the sum allotted to scholarships part of the annual income from the Carnegie fund is set aside for special courses in related subjects. These courses vary from year to year with the needs and interests of the students in science.

Students who have completed the major courses of study in Biology or in Chemistry fulfill the subject requirements for admission to the leading medical schools of the United States. The minimal premedical requirements are met by completing the following courses: Biology 101, Biology 201, Chemistry 101, Chemistry 202, Mathematics 101, Physics 101. Additional work in Biology and Chemistry is recommended, and can be obtained by completing the major subject requirements in either department with allied work in the one not chosen as the major.
REQUIREMENTS FOR THE DEGREE OF
BACHELOR OF ARTS

Every candidate for the degree of Bachelor of Arts, unless she is
a transfer student or is permitted to accelerate her program, must
attend Bryn Mawr College for a period of four years. Students
admitted on transfer from other colleges must study at Bryn Mawr
for at least two years. The minimum number of courses for the
A.B. degree is fourteen and one-half. A course is normally one-
quarter of a student's working time for one year, or approximately
ten hours of work a week, including class meetings. When it is
necessary to express courses in terms of semester hours, one course
is considered equivalent to eight semester hours (until 1944-45 the
term "unit" was used instead of "course"). Numerical grades on
the scale of 100 are given in all courses counting for the degree.
The student must attain a grade of 70 or above in at least half of
these courses and a grade of at least 60 in the remainder. In the
courses in her major subject she must maintain an average of at
least 70, and should she receive a grade below 70 in a Second Year
or Advanced course in her major subject she may be required to
change her major. She must pass a final examination in her major
subject. She must have a reading knowledge of two modern foreign
languages (usually French and German), must pass a Hygiene
examination, and must fulfill the requirements of the Department
of Physical Education.

Every candidate must pursue the following course of studies:

Required Courses:

(1) English Composition. There is supplementary work in
English Speech, consisting of introductory lectures and
individual conferences.

(2) Literature. English, Greek, Latin, or the English Bible.
A student majoring in Greek must take a course in Latin or
English approved by the Department of Greek. A student
majoring in Latin must take a course in Greek or English
approved by the Department of Latin. A student majoring
in English must take a course in Greek or Latin approved
by the Department of English.

(3) Science. Biology, Chemistry, Geology, or Physics. A student
majoring in one of the sciences must substitute for this
requirement a course in Archaeology, History, History of Art,
Economics, Music, Politics, or Psychology.

(4) Philosophy. The History of Philosophic Thought. A student
majoring in Philosophy must substitute for this requirement
a course in Elementary Greek, Psychology or Mathematics.
Major Subject and Allied Subjects: This consists of six courses and preparation for a final examination. A student must take at least three courses in her major subject (many departments require four): one First Year course; one or two Second Year courses; one Advanced course. She must take enough courses in allied subjects to bring the total to six. A Final Examination in the Major Field must be taken by all candidates for the degree.

Free Elective Courses: Four and one-half courses are chosen freely by the student, the only limitations being the prerequisites of the courses selected.

Physical Education: During the first two years in college all students are required to take part in work organized by the Department of Physical Education. No student will be allowed to register for junior year who has not completed the requirement. Special exception may be granted by the Dean of the College in cases of prolonged illness or for transfer students.

Hygiene: All students are required to take at the beginning of their second year an examination based upon reading assigned by the College Physician. Students will not be allowed to register for the senior year unless they have satisfactorily passed the examination in Hygiene. This work does not count as any fraction of the total number of courses required for the degree.

Reading Knowledge of Two Foreign Languages: This is required of all students. They are generally advised to offer French and German since a knowledge of these languages is useful in the work of all departments; but for French or German (not both) a student may substitute Spanish, Italian, Russian, or some other European language if her choice is approved by the department in which she does her major work. The language examinations may be taken in any autumn or spring after entrance, up to the beginning of the senior year. But no student may take a second examination in the same language in the same academic year unless she satisfies the Dean of the College and the Chairman of the Language Examination Committee that she has made a serious effort to prepare for it. A senior who fails either examination or is conditioned in both in the autumn will not receive her degree the following June. If having passed one examination she is conditioned in the other, she may take a second examination in January. Credit towards the degree is not given to seniors for any course taken in preparation for this examination. Students are urged to fulfill this requirement as early as possible in their college career in order to make use of their knowledge of languages in their other work.
The studies required for the degree may be summarized as follows:

English Composition ........................ One course
Physics, Chemistry, Geology, or Biology  One course
English, Greek, Latin, or
the English Bible ............................ One course
Philosophy ...................................... One course
Major and Allied Subjects .................... Six courses
Free Electives .................................. Four and one-half courses.

Advanced Standing. In order to free more time for studies of a more advanced character, students are permitted to take examinations in certain subjects without attending classes in college. These subjects are elementary Greek, French, German, Italian, and Spanish; Trigonometry; and Solid Geometry. Examinations for advanced standing must be taken not later than the beginning of the junior year unless the student's major department recommends a later date. Students wishing to take examinations for advanced standing in subjects other than those listed above must present requests to the Dean of the College, who will consult with the Committee on the Curriculum and with the departments concerned. Students who furnish proof of the possession of a thorough knowledge of French, German, Spanish or Latin may take (but only during the first three weeks after entering College) examinations for advanced standing in these languages.

Co-operation with Neighboring Institutions. Bryn Mawr College co-operates with the University of Pennsylvania, Haverford College, and Swarthmore College in a plan which, while preserving the individual qualities and complete autonomy of each institution, provides an efficient and economical service by co-ordinating the facilities of the four institutions. Full time students of any of the four may, with the approval of the Dean, take any courses desired at any of the other three without additional expense. Full academic credit is granted for such work by the institution in which the student is enrolled.

Summer School Work. Students desirous of supplementing their work at Bryn Mawr by taking courses in summer school are encouraged to do so. Students will not, however, obtain academic credit at Bryn Mawr for work done in summer school except for the following reasons: 1, if the credit is needed for the Bryn Mawr A.B. degree (e.g., to make up credit lost through illness or absence from college); 2, if the course taken is one which is recommended by the major department as a part of the plan of major work. A student who needs to secure credit for work to be done in summer school should first consult the Dean and
secure from her preliminary written approval of the plan, after which the plan must be approved in detail by the department or departments concerned. Credit given for such work will be calculated on an hour-for-hour basis.

*The Degree of Bachelor of Arts* is conferred upon students who have completed the course of study outlined above. The degree is awarded *cum laude, magna cum laude,* and *summa cum laude* to students whose numerical average grade on all their courses is, respectively, 80-84, 85-89, and 90 or above. To students who have completed honors work in their major subject the degree is awarded with distinction in that subject.
COURSES OF STUDY

Credit is generally given in full-year courses only when the work of both semesters is completed. In certain courses, however, credit may be given for one semester's work, but only with the permission of the Dean of the College and the department concerned. A few courses carry additional credit, indicated by the numeral "1½." Courses in each department are numbered according to the following system:

Elementary courses and required courses which are not part of the major work: 1, 2, and so forth.
First year courses in major work: 101, 102, and so forth.
Second year courses in major work: 201, 202, and so forth.
Advanced courses in major work: 301, 302, and so forth.
Elective courses (indicated by *) are numbered in accordance with the year in which they are generally taken.
The letter "a" following a number indicates a half-course given in the first semester.
The letter "b" following a number indicates a half-course given in the second semester.
The letter "c" following a number indicates a half-course given two hours a week throughout the year.

Prerequisites in other departments than the major course of study are indicated in the description of the individual courses.
Courses which, though regular parts of the program, are not given in the current year are enclosed in square brackets.

Applications for renewal should include letters of recommendation from instructors in the medical school.
STUDENTS' LOAN FUND

'The Students' Loan Fund of the Alumnae Association of Bryn Mawr College was founded by the Class of 1890 for the use of students who need to borrow money in order to continue their college work and for the purpose of receiving contributions, no matter how small, from those who are interested in helping students to obtain an education. The fund is managed by the Alumnae Scholarships and Loan Fund Committee.

The committee in administering this money follows a definite policy, designed to serve the best interests of the students concerned. Loans may be used for any purpose approved by the committee, who strongly recommend the borrowing of small sums to relieve undue financial pressure, or to meet special emergencies. As a rule, money is not loaned to freshmen or to students in their first year of graduate work. No student may borrow more than an aggregate amount of $600 during her entire college course.

The terms under which money is loaned are as liberal as is consistent with business-like principles. While the student is in College interest is charged at the rate of one per cent; after the student leaves College the interest rate is two per cent. The entire principal must be repaid within five years from the time the student leaves College, according to the following system: ten per cent in each of the first two years; fifteen per cent each in the third and fourth years; fifty per cent in the fifth year.

Contributions to the Loan Fund may be sent to the Chairman of the Scholarships and Loan Fund Committee, Alumnae Office, The Deanery, Bryn Mawr, Pennsylvania. Students who wish to borrow from the Loan Fund may obtain application blanks for this purpose from the Alumnae Office, which is situated on the second floor of the Deanery.
MARY HILL SWOPE LOAN FUND

This was established June 1, 1945 by a gift of Mrs. Gerard Swope (Mary Hill, A.B. 1896) under the following conditions:
To assist in the education of young women irrespective of color or creed attending Bryn Mawr College, the income of the fund to be loaned to students in the following manner:

1. The following order of preference shall be followed in awarding such loans to students who have had not less than one year of residence at the College:
   A. To students coming from New Jersey.
   B. To students coming from Missouri.
   C. To students coming from any other location.

2. The loans in the above order of preference, and in the following manner, shall be awarded by the President of Bryn Mawr College, or by a Committee appointed by her from time to time.

3. Applicants for loans shall be considered not only from the standpoint of academic attainment and financial need, but also from the standpoint of character and personal qualifications for deriving the greatest good from a continuation of their studies.

4. These loans shall be used primarily to enable the exceptional student to continue her studies which otherwise would be prevented through lack of means.

5. In the awarding of the loans, the recipient should understand that if in after years she is in a position to do so, she is to repay to the income account of the Loan Fund the amount so loaned to her, with or without interest. It is to be understood that this is entirely a moral obligation upon the recipient.

THE BUREAU OF RECOMMENDATIONS

The College conducts a Bureau of Recommendations for alumnae, students, and former students of the College. This bureau offers an employment service for permanent, temporary, and part-time positions; and a vocational service for the student body, which includes vocational tests, assistance in choosing a vocation, and the presentation of a series of conferences and lectures. It also acts as a clearing house for letters of recommendation for those who have registered with the bureau. These letters will be sent, upon request, to prospective employers and other agencies.
The Trustees of Bryn Mawr College will welcome any gift, bequest, or award which is to be devoted to general endowment, or to the endowment of professors' chairs, scholarships, or fellowships in accordance with the wishes of the donor. Such funds may constitute memorials to the donor or to any person he may name. The sum of $200,000 will endow a professor's chair and the sum of $18,000 yields sufficient income to provide the present tuition for one student at Bryn Mawr College.

Form of Bequest

I give and bequeath to the Trustees of Bryn Mawr College, a corporation established by law in the Commonwealth of Pennsylvania, the sum of .................. to be invested and preserved inviolably for the endowment of Bryn Mawr College, located at Bryn Mawr, Pennsylvania.

GRADUATE COURSES

ISSUE FOR THE SESSION OF
1947 • 1948

JUNE 1947
FOREWORD

Bryn Mawr College was founded by Dr. Joseph Taylor of Burlington, New Jersey. During his lifetime the site of the College at Bryn Mawr, Pennsylvania, eleven miles west of Philadelphia, was purchased and the buildings were begun. At his death in January, 1880, he left the greater part of his estate for the maintenance of this institution of higher education for women. In 1880 the College was incorporated under the laws of the Commonwealth of Pennsylvania and was invested with the power to confer degrees. In 1883 the Trustees issued a circular of information. In 1884 Dr. James E. Rhoads was elected President of the College and Dr. M. Carey Thomas was elected Dean of the Faculty. Plans were then matured and academic appointments were made. In the autumn of 1885 the College began its first academic year. On the resignation of President Rhoads in 1893 Dean Thomas was elected to the presidency, an office she held till her retirement in 1922. President Marion Edwards Park succeeded President Thomas in 1922 and retired in 1942. President Katharine Elizabeth McBride took office on July 1, 1942.

The Graduate School of Bryn Mawr College gives advanced instruction and fosters research in the fields of ancient and modern languages and literatures, art and archaeology, mathematics and the natural sciences, the social sciences, philosophy and psychology, and education. The College offers special opportunities to its graduate students to investigate problems in small seminaries under the personal direction of members of the faculty. It has been the policy of the Trustees to provide in every fully organized department for graduate as well as undergraduate study.

Bryn Mawr College confers the degrees of Bachelor of Arts, Master of Arts, Master of Social Service, and Doctor of Philosophy.

ADMISSION

The Graduate School is open to qualified graduates in liberal arts courses of colleges or universities of acknowledged standing. Application for admission, to be made to the Dean of the Graduate School, should be accompanied by a copy of the student's full academic record and by letters from the Dean and from two or more professors of the applicant's undergraduate college. Admission to graduate courses is under the jurisdiction of the various departments which may, at their discretion, require students whose preparation is insufficient to pursue certain introductory courses before being enrolled in a graduate course. Admission to the Graduate School does not automatically qualify a student to become a candidate for an advanced degree. Students whose courses of study meet the prerequisites may on application to the Graduate Committee be enrolled as candidates for the Degrees of Master of Arts, Master of Social Service, or Doctor of Philosophy.

Men as well as women are admitted to the Graduate School and are accepted as candidates for the Degrees of Master of Arts, Master of Social Service, and Doctor of Philosophy.

Graduate Record Examination. The Bryn Mawr Graduate School recognizes as contributory evidence of the qualifications of a student for admission a record of attainment in the Graduate Record Examination as prepared and administered by the Carnegie Foundation for the Advancement of Teaching. This examination is a convenient method by which a student may supplement transcript records. Applicants for admission to the Graduate School who wish to take the examination should apply directly to the Graduate Record Examination, 437 West 59th Street, New York 19, N. Y., where full information may be secured and arrangements for taking the test may be made. There is a fee of $3.00.
RESIDENCE AND EXPENSES

On entrance to the College every graduate student must register immediately at the office of the Dean of the Graduate School. (For registration of courses, see pages 30-31.)

Holders of resident fellowships and scholarships are expected to live in Radnor Hall, the graduate hall of residence. Other graduate students may live there if rooms are available. Students not in residence are expected to make arrangements satisfactory to the College. Every student in Radnor Hall has a separate room which is fully furnished except for rugs, curtains, and towels, which the student is expected to provide.

Application for a room should be made as early as possible. A room-contract, which will be sent on request, must be signed and returned with the registration fee of ten dollars to the Dean of the Graduate School. The amount of this fee will be deducted from the residence fee. The fee will not be refunded under any circumstances. A student in residence or a new student who cancels her reservation after September first prevents some other student from obtaining accommodation and consequently admission to the College. Therefore unless a student sends notice of withdrawal in writing to the Dean of the Graduate School before September first, she is responsible for that portion of the residence charge which the College loses by reason of her withdrawal, whether she fails to occupy the room at all or vacates it during the year. Appropriate reduction or remission is made for that portion of the residence fee which represents reduced expense to the College for food; a further remission or reduction is made if the College is able to reassign the student's room to some other student not previously in residence. The student herself is not entitled to dispose of the room she leaves vacant. In case of absence from the College extending over six weeks or more, owing to illness, there will be a proportionate reduction in the charge for the cost of food.

The charge for residence (room and board) for graduate students is $575 a year payable $350 in the first semester and $225 in the second semester.

The residence halls are closed during the Christmas vacation but accommodations in the neighborhood can usually be secured by graduate students who wish to continue their work. During the spring vacation one hall of residence is kept open and graduate students may occupy rooms in it at a fixed rate. Any student remaining in Bryn Mawr or nearby and not in the College or in
her own home for all or part of a vacation must make arrange-
ments satisfactory to the Dean of the Graduate School.

The College reserves the right to exclude at any time students
whose conduct or academic standing renders them undesirable
members of the college community. In such cases fees due or paid
in advance will not be refunded or remitted in whole or in part;
fellowships and scholarships will be cancelled.

The College reserves the right, if parents cannot be reached, to
make decisions concerning emergency operations or other matters
of health in regard to the students.

The tuition fee for graduate students is three hundred dollars
a year, payable one half on registration and the other half at the
beginning of the second semester. For students registered for less
than full-time work the fees are as follows:

For one graduate course or seminary, or one unit of
independent work ...................................... $125
For one undergraduate course ............................. 150
(Candidates for the degree of Master of Arts or Master
of Social Service are charged $125 for an undergraduate
course which is taken in partial fulfilment of the re-
quirements for that degree.)

Fees for auditors are the same as for students registered in
courses for credit.

Students in the departments of Physics, Chemistry, Geology,
Biology, and Psychology, whose laboratory or field work is done in
connection with a graduate course or an advanced undergraduate
course that may be counted for an advanced degree, are charged
a laboratory fee of $10 a semester for each course, the maximum
fee charged not to exceed $25. The fee for laboratory work done
in connection with a first or second year undergraduate course is
$15 a semester.

All students taking courses which require field work in the
Department of Social Economy and Social Research are charged
a laboratory fee of $10 a semester for each course taken. This fee
covers a part of the expenses of field supervision. In addition stu-
dents are required to meet their travelling and incidental expenses
while working in the field during the academic year and vacations.

The infirmary fee is $25.00. (See pages 22-23.)

The graduation fee for Doctors of Philosophy, Masters of Arts,
and Masters of Social Service is $20.00.

The Office of the Recorder will supply on request one transcript
of the record of each graduate student free of charge. For addi-
tional transcripts a charge of $1.00 each will be made.

Students whose fees are not paid before November first in the first semester and before March first in the second will not be permitted to continue in residence or to attend their classes. No reduction of the tuition fee will be made on account of absence or dismissal or for any other reason.

GRADUATE CLUB

All resident students in the Graduate School are members of the Graduate Club and non-resident students may become members. The organization of the life of the graduate students in all matters not purely academic or affecting hall management is in the hands of the club. The President of the Graduate Club is a member of the College Council, a non-legislative body which meets periodically to discuss matters concerning the College as a whole. The Council of the Graduate Club considers policies relating particularly to the Graduate School.
HEALTH

Every entering resident graduate student is required to file at the office of the Dean of the Graduate School, on a blank to be secured from the Dean of the Graduate School, a report of a recent medical examination, filled out and signed by a physician.

Every resident graduate student must file a physician’s certificate stating that she has been vaccinated against smallpox during the year before entrance to the Graduate School and that she exhibited a typical or immune reaction to this vaccination. Students who do not certify to vaccination will be vaccinated by the College Physician and charged a fee of five dollars. There is no exception to this rule.

Every resident graduate student must file a certificate stating that her eyes have been examined by an oculist within six months before entrance to the Graduate School. Failure to comply with the above rule entails an examination by one of the college consultants for which the student will be charged as a private patient by the ophthalmologist who makes the examination.

Every resident graduate student has a chest X-ray at the beginning of each year. These X-rays are made with paper plates, and a fee of about two dollars is charged for each. If necessary the paper plate is checked with stereoscopic celluloid films, the fee for which is twenty dollars. Any graduate student who has had a chest X-ray within six months preceding the opening of any year will be excused from this procedure, provided a complete report has been filed with the College before September fifteenth of the year in question.

Every resident graduate student is examined each year by the Physician of the College, with reference to physical development and general health. Any graduate student who at the time of the examination or at any time during the year is not in good health is placed on the health supervision list.

The College Physician is in her office in the college infirmary daily and may be consulted by the students without charge. Specialists practising in Bryn Mawr and Philadelphia serve as consulting physicians to the College. The fees of the consulting physicians and surgeons and other specialists recommended by the College will be furnished on request. The infirmary is open when college is in session and during the spring vacation. It is closed during the Christmas vacation.

The infirmary fee of twenty-five dollars paid by each resident graduate student entitles her to free consultation with the College Physicians and to treatment in the college dispensary. It also entitles her to be cared for in the infirmary for seven days (not
necessarily consecutive) during the year and to attendance by the College Physicians during this time and to nursing, provided her illness is not contagious and is not sufficiently serious to require the services of a special nurse. The fee for each day in the infirmary after the seven-day period is six dollars. In case of contagious disease the student must meet or share the expense of special nursing.

Non-resident graduate students may, if they so desire, pay a non-resident infirmary fee of five dollars which entitles them to a medical examination by the College Physician and to dispensary care. Non-resident students may also take the opportunity to have a paper plate chest X-ray at a fee of about two dollars when the annual college X-ray survey is made in the autumn.
THE LIBRARY

The Library of Bryn Mawr College contains 200,514 volumes and over 10,000 pamphlets. Seven hundred periodicals and serial publications in English, French, German, Italian, Spanish, and Swedish are currently received. The basic collection is contained in the M. Carey Thomas Library. The seminary rooms of each department contain books needed for graduate study. Dalton Hall contains the departmental libraries in Biology, Mathematics, and Physics; Park Hall the departmental libraries in Chemistry and Geology.

The privilege of drawing books from any of these collections (with the exception of those books that are on reserve) is granted to all registered students. There is free access to the stacks. The library is open daily, except Sunday, from 8 A. M. to 10 P. M. and on Sunday from 9 A. M. to 10 P. M.

Students have the privilege of using the Library at Haverford College. The Bryn Mawr catalogue includes the "author cards" of books at Haverford and facilitates the exchange of books between the two institutions.

OTHER LIBRARY FACILITIES

The Union Library Catalogue in the Fine Arts Building of the University of Pennsylvania makes possible the easy location of books to be found in any of the more than one hundred and fifty cooperating libraries in the Philadelphia metropolitan area. This catalogue contains a record of about 3,500,000 titles. The Philadelphia Bibliographical Center and Union Library Catalogue endeavors to assist research workers in bibliographical problems which fall outside the scope of any individual library.

The University of Pennsylvania libraries, main, departmental, and special, contain approximately 1,000,000 bound volumes and 230,500 pamphlets. Notable among the special collections are the Henry C. Lea Library of Medieval History and the Horace Howard Furness Memorial Library of Shakespearcana. There are also large special collections in Romance literature and philology; in classical literature and philology; in Semitic languages; in early American drama; in archaeology, anthropology, and other fields. The University libraries receive jointly over two thousand periodicals and several thousand doctoral dissertations annually.

The Philadelphia area is rich in other important libraries. The Historical Society of Pennsylvania possesses extensive collections of manuscripts dealing with both the colonial and national periods,
including transcripts of important documentary material from English archives, local records, both American and English, and a great number of special collections. The Library Company of Philadelphia houses extensive collections of European and American books, pamphlets, periodicals, and society publications in many fields; American history is a major interest. THE DEGREES OF MASTER OF ARTS AND DOCTOR OF PHILOSOPHY

Pamphlets containing full information about the degrees of Master of Arts and Doctor of Philosophy may be obtained on request from the Office of the Dean of the Graduate School.

THE DEGREE OF MASTER OF ARTS

The degree represents the completion of a coordinated program of graduate work which, for a well prepared candidate, requires a minimum of a full year of graduate study. Work for the degree may be spread over two or three academic years which need not be in succession but must be included in a five-year period. Only courses taken at Bryn Mawr College are credited for the degree.

Prerequisites. The prerequisite for the M.A. degree is an A.B. degree or its equivalent from an American college of recognized standing or a degree or certificate of the same standard from a foreign university. The preparation must include such undergraduate work in the candidate's major subject and allied fields as various departments shall require.

Application. The candidate must apply for the degree in the department of the major work and must receive the endorsement of the department for the program of work. The application and the program endorsed by the major department must be submitted to the Dean of the Graduate School not later than December first of the academic year in which the candidate wishes to take the degree.

Language Requirement. A reading knowledge of French and German is in general required of all candidates. For the reading knowledge of one of these languages, certain departments may accept another language or a special technique. The only departments which regularly accept substitutes for French or German

1 In Social Economy, since the student's course requires work in social agencies or community organization in addition to theoretical work, at least two years must be spent on the degree. For students who specialize in Case Work the degree will be Master of Social Service, see p. 53.

2 In general, this term is interpreted to mean colleges of the United States and Canada on the approved list of the Association of American Universities. Graduates of other American and Canadian colleges may, at the request of a department, be admitted to candidacy on probation. At any time after the completion of one semester of graduate work at Bryn Mawr College the Graduate Committee may, on the recommendation of the department, accept the student on probation as a candidate.
are Economics and Politics, Education, Geology, Psychology, Social Economy, Spanish. Candidates whose major work is in French or German must offer a reading knowledge of another language.

A student whose mother tongue is French may offer German and English as languages to meet this requirement. A student whose mother tongue is German may offer French and English. A foreign student whose mother tongue is not French, German or English may offer French or German and English. The requirement in English shall be met by a certificate from the student's major department that her English is adequate or by a special examination given by her department not later than January in the year in which the degree is to be taken. This special regulation for foreign candidates does not prevent a department from refusing admission to any seminary to a student whose language equipment is not satisfactory for that seminary.

The language requirement is met by passing one of two types of papers, hereafter referred to as the A.B. and the Ph.D. types. (1) A.B. type: a general test of reading at sight and with a dictionary which is given by Bryn Mawr College to candidates for the A.B. degree. (2) Ph.D. type: a test set by the major department in reading at sight and with a dictionary technical material in the candidate's field such as is required of Ph.D. candidates at Bryn Mawr College. Departments vary in the type of paper required.

Examinations in languages and in the techniques which may be substituted for one language will be held three times each year, in October, January, and April. Candidates who are completing the work for the M.A. in June must present themselves for the examinations in the preceding October or earlier. Candidates who try the examinations in October and fail may repeat them in January. No student may receive the M.A. degree in June who has not passed the examinations by the January period. The April examination is open only to students taking more than one year to complete the work for the M.A. and is open to them only during the academic years preceding the year in which the M.A. is to be awarded.

Program of Work. The candidate's program must include three units of work: (1) one seminary or graduate course; (2) a second seminary or supervised unit of graduate work; (3) a third seminary or an undergraduate course recommended by the major department. If undergraduate courses are included in this last unit, they must be supplemented by organized individual work. Under certain circumstances some undergraduate courses in science can be counted as seminars, subject to the approval of the department and the Dean of the Graduate School. It is expected that this program will frequently include study in an allied field. Candi-
dates whose major department conducts a Journal Club are expected to include the Journal Club in their registration.

**Special Field.** The candidate shall, in consultation with the major department, select a special field for the M.A. paper and the Final Examination. It is expected that this field will normally relate to one of the seminaries or units of graduate work in the candidate's program.

**Final Requirements.**

1. **Courses.** Before the Final Examination period, candidates must have completed to the satisfaction of their instructors the courses registered for the degree. No candidate will be admitted to the Final Examination if a course is reported as unsatisfactory.

2. **Paper in the Special Field of the Student's Major Subject.** Every candidate must present a paper in the special field. The paper may take the form of a report on a special piece of investigation carried on throughout the year or during a definite period, or of a problem which is assigned to be completed during a specified limit of time.

3. **An Examination.** Every candidate must pass a Final Examination which shall test her ability to place the special field in a general background of her major subject.

   The Final Examination may not be taken until
   (1) the language requirements have been met (by January of the year in which the last full unit for the degree is registered);
   (2) the three units have been reported as satisfactory;
   (3) the paper in the special field has been accepted.

**THE DEGREE OF DOCTOR OF PHILOSOPHY**

The course of study for the degree of Doctor of Philosophy at Bryn Mawr College is designed to prepare the candidate for a professional career as a scholar. The course offers the student the opportunity to acquire a broad general background in the chosen fields of knowledge and practice in research in these fields. The degree is awarded after the student's general knowledge and ability in research have been tested by examination and by a dissertation.

The candidate for the Ph.D. degree should have ability of high order, intellectual curiosity and critical judgment, independence, a broad general education, fundamental training in the major and allied fields and the determination needed to carry through an exacting program.

The general requirements for the Ph.D. degree, to which should be added the specific regulations of the various departments, are:
1. An undergraduate preparation in major and allied fields which is satisfactory to the departments concerned and to the Graduate Committee.

2. A course of study requiring a minimum, which will usually be exceeded, of three full years of graduate work in major and allied fields; two of these years, or for holders of the A.B. degree from Bryn Mawr College one, must be spent in the Graduate School of Bryn Mawr College. Candidates are strongly advised to complete at least seven units of graduate work including five graduate courses; there are, however, no formal course requirements for students who have been accepted as candidates for the degree.

3. The acceptance of the student as a candidate by the Director of her work, by members of her major department, and by the Graduate Committee.

4. A reading knowledge of French and German, tested by a written examination in the translation of French and German texts in the field of the major subject.

5. A satisfactory Preliminary Examination in the candidate's major and allied fields. This examination is intended to test the candidate's general knowledge of the fields rather than familiarity with particular courses.

6. The preparation of a dissertation judged to be a contribution worthy of publication. The dissertation must represent independent investigation in the field covered by the major subject. It must contain new material, results or interpretations.

7. A satisfactory Final Examination in the special field of the major subject in which the dissertation has been written.

8. The publication of the dissertation in whole or in part.
COURSES OF STUDY
1947-1948

Graduate courses are offered in the Departments of Biology, Chemistry, Classical Archaeology, Comparative Philology and Linguistics, Economics and Politics, Education, English, French, Geology, German, Greek, History, History of Art, Italian, Latin, Mathematics, Music, Philosophy, Physics, Psychology, Social Economy and Social Research, and Spanish.

All undergraduate and graduate courses of the College are open to properly qualified graduate students. Only advanced and elective and a few second year undergraduate courses are described in this calendar. For the complete undergraduate program see the Calendar of Undergraduate Courses.

Graduate and undergraduate courses at the University of Pennsylvania are also available for graduate students of Bryn Mawr College. By a reciprocal arrangement with the University full-time graduate students of Bryn Mawr College are admitted without tuition charge to courses at the University for which they are qualified.

Three units of graduate work, each planned to take a third of the student's time, constitute a full program, and not more than three such courses may be elected by a student. The units of graduate work are of two types:

1. The graduate course or seminar, described under the departmental announcements.

2. An independent unit of graduate work, equivalent to a graduate course or seminar, planned and examined by an instructor but carried on independently by the student. Such work may consist of reading with assigned reports, research with results submitted, or a combination of both.

The prerequisites for graduate courses, approximately twenty semester hours of undergraduate work in the subject, are established by the various departments. In special cases, with the approval of the department concerned, work in related subjects of equivalent value may be accepted.

It is the practice of most departments to vary the graduate courses and seminars from year to year so that a candidate for the degree of Doctor of Philosophy may pursue the work for several successive years. In special cases the announced order may be changed to suit the needs of students.

In many departments the instructors and graduate students meet from time to time in a Journal Club to discuss recent publications in their field of study. Students will be notified by their respective departments of arrangements for the Journal Clubs.
Every graduate student must register her courses at the Office of the Dean of the Graduate School within two weeks after entering the College. Permission to make any change in registration must be received from the Dean of the Graduate School.

Approved major and allied subjects for all departments are listed in the printed Regulations for the Degrees of Master of Arts and Doctor of Philosophy.

The Plan for Coordination in the Teaching of the Sciences offers special training in borderline subjects. A gift from the Carnegie Corporation enables the College to award scholarships to qualified students in such fields as biophysics, geophysics, and geochemistry. As such work demands a thorough knowledge of the fundamentals of at least two sciences, it is often impossible for students to include all the desired courses in four undergraduate years; these scholarships are intended primarily to provide for an additional year (mainly in the Undergraduate School) so that the student may be ready, at the end of five years, to begin graduate work in her chosen correlated fields. In addition to the sum allotted to scholarships part of the annual income from the Carnegie fund is set aside for special courses in related subjects. These courses vary from year to year with the needs and interests of the students in science.

Undergraduate courses in each department are numbered according to the following system:

Advanced courses in major work: 301, 302, and so forth.

Elective courses (indicated by *) are numbered in accordance with the year in which they are generally taken.

The letter "a" following a number indicates a half-course given in the first semester.

The letter "b" following a number indicates a half-course given in the second semester.

The letter "c" following a number indicates a half-course given two hours a week throughout the year.

Undergraduate courses which, though regular parts of the program, are not given in the current year are enclosed in square brackets.

FELLOWSHIPS AND SCHOLARSHIPS

Bryn Mawr College offers in the Graduate School travelling, resident, and teaching fellowships, resident and non-resident scholarships, and a research assistantship.

APPLICATION

Applications for resident fellowships and scholarships should be made to the Dean of the Graduate School and must be filed not later than March first preceding the academic year for which they are desired. Blanks are forwarded to all applicants by the Dean. Awards are announced each year on April first. Original papers and photographs, sent by applicants in support of their applications, can be returned only if postage is enclosed for that purpose, or specific instructions are given for return by express. Testimonials and letters from professors and instructors are filed for reference.

DUTIES OF RESIDENT FELLOWS AND SCHOLARS

Resident fellows and scholars are expected to live in the graduate hall, to attend official functions of the College, and to assist in the conduct of examinations. Holders of fellowships are expected to give about an hour and a half a week to special work assigned by their departments, and are not permitted to teach or to undertake any other duties in addition to their college work. Holders of scholarships may, with the approval of the Dean of the Graduate School, make their own arrangements to do a limited amount of paid work. Resident fellows and scholars must pay the usual fees and charges (see pages 19-21).

TRAVELLING FELLOWSHIPS

The Bryn Mawr European Fellowship, value $500, founded in 1889, is awarded annually to a member of the graduating class, to be applied toward the expenses of one year's study at some foreign university. For the present, it may be held in an American university. The holder of this fellowship receives in addition an Elizabeth S. Shippen Scholarship, value $200.

The Mary Elizabeth Garrett European Fellowship, value $1000, founded by Miss Garrett of Baltimore, is awarded annually for excellence in scholarship to a graduate student at Bryn Mawr College who is a candidate for the degree of Doctor of Philosophy at Bryn Mawr College. It is to be applied to the expenses of one year's study or research abroad, or, in special cases, in the United States.

The Fanny Bullock Workman Fellowship for a year of study or research abroad was established in 1927 by bequest of Fanny Bullock Workman and by gift of her husband, Dr. W. Hunter Workman. It is awarded to a candidate for the degree of Doctor of Philosophy at Bryn Mawr College who could not have the
advantages of such a year without assistance. At the discretion of
the Faculty, the fellowship for any one year may be divided between
two students, or the same student may hold the fellowship for
more than one year.

The Anna Ottendorfer Memorial Research Fellowship, value
$1000, in German and Teutonic Philology, founded in 1907 by
Mrs. Anna Woerishofer of New York City in memory of her
mother, is to be applied to the expenses of study and residence for
one year at some German university. It is awarded annually to a
candidate who has completed at least one year of graduate study
at Bryn Mawr College, on the basis of evidence regarding her
ability to conduct independent investigations in the fields of
Teutonic Philology or German. The choice of a university is
determined by the holder's preference subject to the approval of
the Faculty.

The Ella Riegel Scholarship in Classical Archaeology was founded
in 1937 by bequest of Ella Riegel. It is awarded on the recommenda-
dation of the Department of Classical Archaeology and only to
advanced students in this subject. It is given for study abroad but
may, at the discretion of the department, be used at Bryn Mawr
College.

can and Canadian students who are graduates of any college of
good standing, and have completed at least one full year of gradu-
ate work after obtaining their first degree or have obtained the
Master's degree.

Fellows who continue their studies at the College after the
expiration of their fellowships may, by a vote of the Directors,
receive the rank of Fellows by Courtesy.

The Helen Schaeffer Huff Memorial Research Fellowship. This
fellowship is awarded for a year of research work in Physics or
Chemistry at Bryn Mawr College. Candidates must be women
who have demonstrated their ability for research. If other qualifi-
cations are equal among a number of candidates, preference will
be given to a woman whose field of research overlaps the fields
of Chemistry and Physics. This fellowship is normally awarded
to a post-doctoral candidate to enable her to continue her research
program. In such cases the stipend will be $1600. In exceptional
cases, candidates engaged in important research who have not com-
pleted the work for the doctorate will be considered. For such
students the stipend will be smaller, the amount to be determined on the basis of the candidate's qualifications.

The Helen Schaeffer Huff Memorial Research Fellow has no duties except those connected with her own research, but she may arrange with the department in which she is working to do a small amount of teaching if she so desires. The holder of this fellowship may, if she wishes, live in Radnor Hall, the graduate residence hall of Bryn Mawr College.

Holders of this grant may live in the graduate hall.

RESEARCH ASSISTANTSHIP

The Susan M. Kingsbury Research Assistantship in Social Economy and Social Research, value $800 and a remission of tuition, is awarded annually on the recommendation of the Director of the Carola Woerishoffer Graduate Department of Social Economy and Social Research. It is open to graduates of any college of good standing, preferably to advanced students and candidates for the degree of Doctor of Philosophy, who, from either training or experience, have knowledge of methods and techniques in social investigation.

GRADUATE PRIZE

The Susan B. Anthony Memorial Prize, value $500, commemorating the great work of Susan B. Anthony for women, was founded by her friend, Anna Howard Shaw, and her niece, Lucy E. Anthony. It is offered every two years to a graduate student at Bryn Mawr College who has published or submitted in final form for publication the best study dealing with the industrial, social, economic, or political position of women in the past, present, or future. The award is made by a committee of which the President of the College is chairman.

EMMY NOETHER FELLOWSHIP

The Emmy Noether Fellowship in Mathematics was founded by gifts from many donors in memory of Emmy Noether who came to Bryn Mawr College from Germany in 1933 and who died April 14, 1935. It is open to women in the United States and in foreign countries who are advanced graduate students of Mathematics. It is awarded by the Department of Mathematics in Bryn Mawr College, and may be used, subject to the approval of the Department, at any institution in the United States or in a foreign country.
The Students’ Loan Fund of the Alumnae Association of Bryn Mawr College was founded by the Class of 1890 for the use of students who need to borrow money in order to continue their college work and for the purpose of receiving contributions, no matter how small, from those who are interested in helping students to obtain an education. The fund is managed by the Alumnae Scholarships and Loan Fund Committee.

The committee in administering this money follows a definite policy, designed to serve the best interests of the students concerned. Loans may be used for any purpose approved by the committee, who strongly recommend the borrowing of small sums to relieve undue financial pressure, or to meet special emergencies. As a rule, money is not loaned to students in their first year of graduate work.

The terms under which money is loaned are as liberal as is consistent with business-like principles. While the student is in College interest is charged at the rate of one per cent; after the student leaves College the interest rate is two per cent. The entire principal must be repaid within five years from the time the student leaves College at the rate of twenty per cent each year.

Contributions to the Loan Fund may be sent to the Chairman of the Scholarships and Loan Fund Committee, Alumnae Office, The Deanery, Bryn Mawr, Pennsylvania. Students who wish to borrow from the Loan Fund may obtain application blanks for this purpose from the Alumnae Office.

Bertha Goldstein Memorial Loan Fund

The Bertha Goldstein Memorial Loan Fund, established in honor of Bertha Goldstein, A.B. 1938 and M.A. 1939, is a revolving fund from which, upon recommendation of the Department of Social Economy, a limited number of loans may be made to graduate students of Social Economy. Loans are made without interest and must be repaid within five years.
MARY HILL SWOPE LOAN FUND

This was established June 1, 1945 by a gift of Mrs. Gerard Swope (Mary Hill, A.B. 1896) under the following conditions:
To assist in the education of young women irrespective of color or creed attending Bryn Mawr College, the income of the fund to be loaned to students in the following manner:

1. The following order of preference shall be followed in awarding such loans to students who have had not less than one year of residence at the College:
   A. To students coming from New Jersey.
   B. To students coming from Missouri.
   C. To students coming from any other location.

2. The loans in the above order of preference, and in the following manner, shall be awarded by the President of Bryn Mawr College, or by a Committee appointed by her from time to time.

3. Applicants for loans shall be considered not only from the standpoint of academic attainment and financial need, but also from the standpoint of character and personal qualifications for deriving the greatest good from a continuation of their studies.

4. These loans shall be used primarily to enable the exceptional student to continue her studies which otherwise would be prevented through lack of means.

5. In the awarding of the loans, the recipient should understand that if in after years she is in a position to do so, she is to repay to the income account of the Loan Fund the amount so loaned to her, with or without interest. It is to be understood that this is entirely a moral obligation upon the recipient.

THE BUREAU OF RECOMMENDATIONS

The College conducts a Bureau of Recommendations for alumnae, students, and former students of the College. This bureau offers an employment service for permanent, temporary, and part-time positions; and a vocational service for the student body, which includes vocational tests, assistance in choosing a vocation, and the presentation of a series of conferences and lectures. It also acts as a clearing house for letters of recommendation for those who have registered with the bureau. These letters will be sent, upon request, to prospective employers and other agencies.

FOREWORD

Bryn Mawr College was founded by Dr. Joseph Taylor of Burlington, New Jersey. During his lifetime the site of the College at Bryn Mawr, Pennsylvania, eleven miles west of Philadelphia, was purchased and the buildings were begun. At his death in January, 1880, he left the greater part of his estate for the maintenance of this institution of higher education for women. In 1880 the College was incorporated under the laws of the Commonwealth of Pennsylvania and was invested with the power to confer degrees. In 1884 Dr. James E. Rhoads was elected President of the College and Dr. M. Carey Thomas was elected Dean of the Faculty. Plans were then matured and academic appointments were made. In the autumn of 1885 the College began its first academic year. On the resignation of President Rhoads in 1893 Dean Thomas was elected to the presidency, an office she held till her retirement in 1922. President Marion Edwards Park succeeded President Thomas in 1922 and retired in 1942. President Katharine Elizabeth McBride took office on July 1, 1942.

The College believes in the value of small classes and limits the enrollment of undergraduate students to about five hundred and fifty and graduate students to about one hundred and fifty.

England
ADMISSION

Bryn Mawr College is interested in candidates of varied interests and talents who come from a wide range of schools and regions in the United States and abroad. The essentials for admission are character and ability, the desire for a liberal education, and sound training in school.

In its consideration of candidates the College looks for evidence of ability in the student's high school record, her rank in class, and her College Board tests and asks her high school principal for an estimate of her character, maturity, and readiness for college. The Director of Admissions welcomes correspondence and interviews with candidates, their parents, and school advisers. The College reserves the right in all cases to determine which candidates shall be admitted.

Program of Secondary School Studies

Candidates are expected to complete a four-year secondary school course which includes work in English, foreign languages, mathematics, history, and science. The first three of these subjects should be carried through most of the school course.

The best foundation for the work of the College is a program of four years of English grammar, composition, and literature, two and a half or three years of mathematics, including Plane Geometry, Elementary and Intermediate Algebra, and in languages three years of Latin (or two of Greek), and three of a modern foreign language. At least one course in history and one in science (Biology, Chemistry, or Physics) should also be included. Further work in the subjects already mentioned or a year's work in History of Art, History of Music, or Biblical Literature should make a recommended total of 16 credits. Students offering more than six years work in foreign language may obtain college credit by passing advanced standing examinations given at the college every autumn.

The College recognizes the wide differences among the curricula of different schools and the consequent variations among students' programs. Candidates of ability whose plans of study differ from those suggested will always be given careful consideration provided their programs show continuity in the study of basic subjects. Candidates are advised to read the section on requirements for the degree of Bachelor of Arts at Bryn Mawr.

Application for Admission

Application forms may be obtained from the Director of Admissions, Bryn Mawr College, Bryn Mawr, Penna. A fee of $10.00 must accompany each application and is not refunded if the candidate later withdraws her name or is not admitted. Application does not insure admission. Students are urged to register for admission early
in their high school course so that their programs may be approved and their names added to the College mailing list. Admitted candidates are assigned rooms in order of date of registration.

**Entrance Tests**

The Scholastic Aptitude Test and three Achievement Tests of the College Entrance Examination Board are required of all candidates. Candidates are advised to offer all tests in April of the senior year in secondary school, but may if they prefer take the Scholastic Aptitude Test in January of that year.

The Scholastic Aptitude Test (3 hours) offers three programs as follows:

- **Program 1.** Verbal and Mathematical Aptitude Sections. Mathematical section is based on arithmetic plus the rudiments of algebra and geometry.
- **Program 2.** Verbal Section and Intermediate Mathematics Test. Mathematics section is based on 1 year of plane geometry and 1½ or 2 years of algebra.
- **Program 3.** Verbal Section and Comprehensive Mathematics Test. Mathematics section is based on 3½ to 4 years of mathematics, including 1 year of plane geometry, 2 years of algebra, and at least one semester of trigonometry. Solid geometry advised but not required.

Candidates studying Mathematics in their senior year should offer Program II or Program III. A candidate who is not studying Mathematics during the year in which she is examined should take Program I regardless of the extent of her training.

The Achievement Tests (one hour each) are ten in number: English, Latin, French, German, Spanish, Biology, Chemistry, Physics, Social Studies, and Spatial Relations. Bryn Mawr candidates should take three Achievement Tests: English, a foreign language; and either Social Studies or one of the sciences.

The Scholastic Aptitude and Achievement Tests are to be taken without special preparation. They are so constructed that ample opportunity is allowed for candidates to secure good scores on the basis of work well done during the school year.

**Application for the College Entrance Examination Board Tests**

Candidates should make application by mail to the College Entrance Examination Board. Students who wish to take the examinations in any one of the following western states, territories, and Pacific areas: Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming, Territory of Alaska, Territory of Hawaii, Australia, and all Pacific islands
except Formosa and Japan, should address their inquiries and send
their applications to

College Entrance Examination Board
P. O. Box 775
Berkeley 4, California.

All others should write to

College Entrance Examination Board
P. O. Box 592
Princeton, New Jersey.

Application forms will be sent to any teacher or candidate upon request. When ordering the forms, candidates should state whether they wish forms for the January, April, June or August tests. Applications for any particular series will not be available until after the preceding series has been held. A copy of the Bulletin of Information is automatically sent to every candidate requesting an application blank.

There is a fee of ten dollars for registration for both the Scholastic Aptitude Test and the Achievement Tests, of five dollars for the Scholastic Aptitude Test alone, and of seven dollars for the Achievement Test alone. This fee must accompany each application and may be remitted by postal or express money order or by check. Late applications will be subject to a penalty fee of three dollars in addition to the regular fee.

All applications and fees should reach the office of the Board not later than the dates specified in the following schedule:

Only properly registered candidates, holding tickets of admission to the centers at which they present themselves, will be admitted to the tests.

Admission of Transfer Students and of Foreign Students

Students are admitted on transfer from colleges and universities accredited by the Association of American Universities and from foreign universities approved by the College. Such students must have had excellent school records and grades of A and B in their college courses. In addition to their school and college transcripts
they must send in a letter of recommendation from an official of their college, and they must offer the Scholastic Aptitude Test and three Achievement Tests of the College Entrance Examination Board, or, if previously offered, a report on these tests. Foreign students may substitute examinations admitting them to universities in their own countries. Students whose native language is not English may be asked to take, in addition to entrance tests, the special English Examination for Foreign Students set by the College Entrance Examination Board.

No credit will be given for work done elsewhere until the student has successfully completed a year's work at Bryn Mawr. To qualify for the A.B. degree transfer students must have studied at Bryn Mawr for at least two years. Students of other colleges or universities who have outstanding conditions, who have otherwise failed to meet prescribed standards of academic work, or who have been put on probation or suspended or excluded, will under no circumstances be admitted to Bryn Mawr College.

"HEARERS"

Women over twenty-five years of age are admitted as "hearers" to undergraduate courses without a matriculation examination, but they must furnish proof that they have at some time pursued the studies required for matriculation. Hearers are clearly differentiated from regularly matriculated students and must obtain permission from each instructor to attend classes, laboratories, and examinations. They are not eligible for degrees and may receive only such certificates of collegiate study as their instructors see fit to give. They are charged the full tuition fee. No other special students are admitted to undergraduate courses at Bryn Mawr College.
RESIDENCE AND EXPENSES

Residence

Halls of Residence. There are nine undergraduate halls of residence: Denbigh Hall, Merion Hall, Pembroke Hall East and West, James E. Rhoads Hall North and South, Rockefeller Hall, Wyndham, and Radnor. A resident warden is in charge of each hall. Each hall has its separate kitchen and dining-room except Pembroke and Rhoads, each of which has a common kitchen and dining-room for the two wings. Each room is furnished with a bed, bureau, table-desk, straight chair, desk chair, and bookcase, but students supply their own rugs, curtains, and towels.

Language Houses. There are three “language houses,” in which students get practice in spoken French, German, and Spanish: the French House, with accommodations for eighteen students, occupies Wyndham; the German House and the Spanish House usually occupy a floor of one of the larger dormitories. Each house has its dining-room or alcove where breakfast and dinner are served; but lunch is provided in the larger halls of residence with the other students. Students living in these houses are under the supervision of the French, German and Spanish departments respectively, and applications to live in the houses must be approved by the department concerned.

Application for Residence. A student in residence, who wishes to apply for a room for the following year, must make an application for a room and accompany it with an application fee of $10. This fee will be credited against the residence charge if the room assigned is occupied by the applicant; it will not be refunded in any circumstances. Each student enrolled for the following year must make an additional deposit of $40 not later than June first. This deposit will also be credited against the residence charge. It will be returned if the student withdraws from College before July first; it will not be returned if she withdraws later than July first.

New students applying for residence will be billed $50 early in the summer. This $50 will be credited against the residence charge, but it will not be returned in case of withdrawal after July first.

An applicant who, after having reserved a room, fails to cancel her reservation by September first (even though she does not occupy the room at all or vacates it during the college year) prevents some other student from obtaining accommodation and consequently admission to the College. Therefore, unless formal notice of withdrawal of application for the ensuing academic year is received by the Dean of the College by September first, the applicant is responsible for the residence charge (based upon the room assigned to her) for the whole year, or if a definite room assignment has not
been made, the applicant is responsible for the minimum residence charge of $800; subject to an allowance for the cost of food if absent for more than six consecutive weeks, and a further allowance if the College re-rents the room to a student not previously resident. The applicant is not entitled to dispose of the room that she leaves vacant.

**Non-Resident Students.** For students living with their families in Philadelphia and the vicinity there are club-rooms in Goodhart Hall and in the Library, and such students have the use of the large Common Room in Goodhart Hall. Non-resident students are liable in whole or in part for all undergraduate fees except those for residence in the halls. The non-resident infirmary fee of $5 entitles them to medical examination and consultation with the College Physician.

**EXPENSES: TUITION AND RESIDENCE**

**Tuition.** The tuition fee for all undergraduate students, resident and non-resident, and for hearers is $650 a year. This fee is payable on receipt of bill in October. No reduction or refund of the tuition fee can be made on account of absence, illness, dismissal, or for any other reason.

The average cost of teaching each undergraduate student is over $1000 a year. The difference must be met from the endowment funds of the College and from private gifts. Voluntary contributions from parents able and willing to pay the additional sum or part of it, will be used for scholarships for students unable to pay the regular tuition fee.

**Residence.** The charge for residence is $800, $900, or $1000 according to the size and location of the student’s room or rooms. The residence fees are payable as follows:

- $800 — payable $500 in October, $300 in February
- $900 — payable 600 in October, 300 in February
- $1000 — payable 700 in October, 300 in February

**Reduction of Charges for Absence from College.** In case of illness or withdrawal from the College for a period of six consecutive weeks or longer there will be a reduction in the charge for residence (representing the reduced expense to the College for food), provided written notice is given to the Dean of the College and the Comptroller at the time of withdrawal, or, in the case of illness at home, as soon as possible. Verbal notice to wardens or instructors is not sufficient to secure this reduction.

**Residence during Vacations.** A student who wishes to remain at the College during the Christmas and spring vacations should apply to the warden of her hall for information in regard to rooms and rates. During the Christmas vacation the halls of residence are closed but individual students may make arrangements for accommodations near the college campus; these arrangements are subject

to the approval of the College. During the spring vacation one hall of residence is kept open and undergraduate students may occupy rooms in it at a fixed rate. Students remaining during any part of the Christmas or spring vacations in Bryn Mawr, or in the immediate neighborhood, not in their own homes, are required to take advantage of the arrangements made by the College and will be charged according to the length of the stay. A student not going to her own home is required to inform the warden of her intention to spend the vacation elsewhere and to register her address with her warden.

Summary of Major Expenses:
For resident students, tuition and residence: $1450, $1550, or $1650 according to the type of accommodation.
For non-resident students, tuition: $650.

Minor Fees and Charges

Infirmary fee:
For non-resident students ............. $5.00

Laboratory courses (or, in geology, field work): for materials and apparatus:

Bills will be rendered by the Comptroller within the first few days of each semester. Students whose fees and charges are not paid before November first in the first semester and before March first in the second are not permitted to continue in residence or in attendance on their classes.

The Tuition Plan

Since some parents prefer to pay tuition and other college fees in equal monthly instalments during the college year, the College offers this convenience under "The Tuition Plan, Inc., New York City." The cost is four per cent greater than when payment is made in cash. If the plan of payment in equal monthly instalments is preferred, notification should be sent to the Comptroller of the College by September fifteenth. The Tuition Plan contract accompanied by the College bill will be forwarded by the Tuition Plan to parent or guardian between October first and fifteenth.
GENERAL REGULATIONS

Residence in the college buildings is required of all undergraduate students except those who live with their families in Philadelphia or the vicinity.

Every student must register with the Comptroller at the beginning of each college year. This regulation must be complied with before 8.45 A.M. of the first day of classes.

Freshmen are asked to come into residence four days before the College is opened to all upperclassmen. They are received by the wardens of the various halls and by a committee of upperclassmen. The President and the Dean of the College wish to interview new students during these first few days. The Dean of Freshmen must see all freshmen in the course of these four days to advise them on their registration. During this time also the new students are made familiar with the library, take their tests and physical examination, and become acquainted with the College.

The Dean of the College is academic adviser to all undergraduates of the three upper classes. Upperclassmen will also consult with the heads of the departments in which they elect to do their major work. Students are urged to plan their work with reference to the schedule of classes and laboratories in order to avoid any conflict of hours which might prevent them from electing courses that they need.

The Students' Association for Self-Government, of which all undergraduates are members, has jurisdiction over the conduct of the students in all matters except those which are purely academic or which affect living arrangements.

The College reserves the right to exclude at any time any student whose conduct or academic work is unsatisfactory. In such cases the fees due or already paid to the College will be neither refunded nor remitted in whole or in part.

Integrity of all work is demanded of every student. In an examination or quiz no student shall hold any communication with another student or give or receive any assistance. Printed rules governing written work are handed to all entering students; a signed certificate that they have read and understood them is required. Any infraction of these rules or any action contrary to their spirit constitutes an offense.

Regular attendance at classes is expected.
HEALTH

Every entering student is required to file at the office of the Director of Admissions, on a blank to be secured from the College, a report of a recent medical examination, filled out and signed by a physician.

The blank includes a space for a physician’s certificate stating that the student has been vaccinated against smallpox during the year preceding her entrance to College and that she exhibited a typical or immune reaction to this vaccination. Students who do not certify to vaccination at entrance will be vaccinated by the College Physician. A fee of five dollars will be charged.

There is required on the medical examination blank a statement of immunization against tetanus by toxoid and of evidence of a negative Schick test. If these have not been done the student should arrange to have these immunizations completed before admission to College. A statement to that effect signed by the examining physician must be presented at the time of entrance.

Every student must file a certificate stating that her eyes have been examined by an oculist within six months before entrance and again before the beginning of her junior year. Failure to comply with the above rule entails an examination by one of the college consultants for which the student will be charged as a private patient by the ophthalmologist who makes the examination.

At the beginning of each year every student has a chest X-ray. These X-rays are made with paper plates, and a fee of about two dollars is charged for each. If necessary, the paper plate is checked with stereoscopic films, the fee for which is twenty dollars. Any student who has had a chest X-ray within six months preceding the opening of any year will be excused from this procedure, provided a complete report has been filed with the College before September fifteenth of the year in question.

Every undergraduate is examined each year by the Physician of the College and at intervals by the Director of Physical Education with reference to physical development and general health. All students are urged to take some out-of-door exercise in addition to their required work in Physical Education. Any student who at the time of the examination or at any time during the year is not in good health is placed on the health supervision list. She is required to follow the special regime prescribed and her extracurricular activities may be limited.

The College Physician is in her office in the college infirmary daily and may be consulted by the students without charge. Specialists practising in Bryn Mawr and Philadelphia serve as consulting physicians to the College. The fees of the consulting physicians and surgeons and other specialists recommended by the
College will be furnished on request. The infirmary is open when college is in session and during the spring vacation. It is closed during the Christmas vacation.

The residence fee paid by each resident student entitles her to free consultation with the college physicians and to treatment in the college dispensary. It also entitles her to be cared for in the infirmary for seven days (not necessarily consecutive) during the year and to attendance by the college physicians during this time and to nursing, provided her illness is not contagious and is not sufficiently serious to require the services of a special nurse. The fee for each day in the infirmary after the seven-day period is six dollars. In case of contagious disease the student must meet or share the expense of special nursing.

All communications concerning the health of students from parents and guardians, outside physicians and others, should be addressed to the Dean of the College. Any student who becomes ill when absent from the College is asked to notify the Dean of the College immediately and to present a signed statement from her physician when she returns.

The College reserves the right, if the parents or guardians cannot be reached, to make decisions concerning operations or other matters of health.

The College has arranged with the Connecticut General Life Insurance Company of Hartford, Connecticut, for health insurance, known as the Students’ Reimbursement Plan. Under this plan individual policies are issued to the students who subscribe which provide for reimbursement, within specified limits, for the medical, surgical, and hospitalization expenses in cases of operation and prolonged illness. The cost of such a policy is fifteen dollars a year and includes protection during all vacations.
THE LIBRARY

Containing a collection of over 203,000 volumes and approximately 12,000 pamphlets the Library supplies most of the needs of the faculty and students, both graduate and undergraduate. Periodicals and serials, American and foreign, numbering more than 900, are currently received. The basic collection of books is housed in the M. Carey Thomas Library, either in the main stacks, in the West Wing built in 1940, or in the seminary rooms where are shelved those volumes most needed for graduate study. Separate libraries are maintained in Dalton Hall for Physics, Biology, and Mathematics, and in Park Hall for Geology and Chemistry. There are small collections of books in the various halls of residence including the "language houses", most of these being duplicates of the books in the Reserve Book Room in the Main Library. The Quita Woodward Memorial Room, designed like a private library, houses new books and the standard authors for leisure-time reading. The Rare Book Room, where a variety of exhibitions are displayed throughout the year, has about 1,000 volumes, incunabula, fine press books, rare editions and manuscripts.

The Library is open for study from 8 A.M. until 10 P.M. every day of the week, and from 9 A.M. until 10 P.M. on Sunday. It provides seating capacity for about one third of the student body, and with the open-shelf system, free access to the stacks is permitted to every registered student. The student also have the privilege of using the Library of nearby Haverford College, this use being facilitated by the inclusion of duplicate Haverford "author cards" in the Bryn Mawr Library catalogue.

The libraries in Philadelphia are generous in making their large resources available to students. The Philadelphia Bibliographical Centre and Union Library Catalogue located at the University of Pennsylvania make it possible to locate easily the material available in approximately one hundred and fifty libraries in the Philadelphia metropolitan area.
CURRICULUM

Major courses of study are offered in Biology, Chemistry, Classical Archaeology, Economics and Politics, English, French, Geology, German, Greek, History, History of Art, Italian, Latin, Mathematics, Philosophy, Physics, Psychology, Sociology and Social Economy, and Spanish. Elective courses are offered in Education, the History of Religion, Music, and Russian, as well as in the major departments.

Every candidate for the degree of Bachelor of Arts chooses in the spring of her sophomore year a major subject of study. This is combined with work in allied subjects. The object of this system is to give to the student the thorough training in method and the familiarity with the literature of a subject which constitute the necessary foundation for work of an advanced character. The discipline thus provided by continuity of training is an advantage in any field of activity, and for the student who intends to pursue graduate study and research in her chosen field the groundwork is laid.

Candidates for the degree must include also four courses considered important for a liberal education and required of everyone: Freshman English Composition, the History of Philosophic Thought, one course in one of the sciences, and one course in literature.

Fourteen and one-half courses comprise the undergraduate curriculum. (For definition of course, see p. 37.) For the first three years the usual course load is four, but four and a half courses may be taken with special permission by students whose work is satisfactory. During the senior year, two and a half or three courses are usually taken, together with the unit of work done in preparation for the final examinations.

Preparation for a Final Examination in the major field requires the student to review and correlate the material covered in her major courses and (where it seems desirable) in allied courses, and to carry on independent reading selected to round out her knowledge of her field as a whole, thus giving her a deeper insight into fundamental principles and general concepts. In part of the examination emphasis is laid upon a broad general knowledge of the subject. The student is expected to devote approximately ten hours a week for one year to the preparation for this examination. Most of this preparation is done in the senior year but part may be done, on the advice of the department, during the preceding summer or in the junior year. With the approval of the major department one-third of this preparation may be devoted to an allied subject and one part of the examination may be set by an allied department.
Honors work is of a more advanced character than that done in the regular courses and requires greater initiative and power of organization than is usually expected of undergraduate students. No student may elect to work for honors without the recommendation of her department and the approval of the Committee on the Curriculum. Reports giving to the student an opportunity to test her ability in the selection and interpretation of source-material are usually required. These special studies may be carried on in connection with an Advanced course or they may be planned for individual students. Such work may be undertaken only after the completion of two years of study in the major subject.

The Plan for Co-ordination in the Teaching of the Sciences offers special training in borderline subjects. A gift from the Carnegie Corporation enables the College to award scholarships to qualified students in such fields as biophysics, geophysics, and geochemistry. As such work demands a thorough knowledge of the fundamentals of at least two sciences, it is often impossible for students to include all the desired courses in four undergraduate years; these scholarships are intended primarily to provide for an additional year (mainly in the Undergraduate School) so that the student may be ready, at the end of five years, to begin graduate work in her chosen correlated fields. Students entering Bryn Mawr who wish to work in science should consider the advantages of this plan and should consult with the heads of the departments in which their special interests lie as early in their college career as possible. In addition to the sum allotted to scholarships part of the annual income from the Carnegie fund is set aside for special courses in related subjects. These courses vary from year to year with the needs and interests of the students in science.

Students who have completed the major courses of study in Biology or in Chemistry fulfill the subject requirements for admission to the leading medical schools of the United States. The minimal premedical requirements are met by completing the following courses: Biology 101, Biology 201, Chemistry 101, Chemistry 202, Mathematics 101, Physics 101. Additional work in Biology and Chemistry is recommended, and can be obtained by completing the major subject requirements in either department with allied work in the one not chosen as the major.
REQUIREMENTS FOR THE DEGREE OF BACHELOR OF ARTS

Every candidate for the degree of Bachelor of Arts, unless she is a transfer student or is permitted to accelerate her program must attend Bryn Mawr College for a period of four years. Students admitted on transfer from other colleges must study at Bryn Mawr for at least two years. The minimum number of courses for the A.B. degree is fourteen and one-half. A course is normally one-quarter of a student's working time for one year, or approximately ten hours of work a week, including class meetings. When it is necessary to express courses in terms of semester hours, one course is considered equivalent to eight semester hours (until 1944-45 the term "unit" was used instead of "course"). Numerical grades on the scale of 100 are given in all courses counting for the degree. The student must attain a grade of 70 or above in at least half of these courses and a grade of at least 60 in the remainder. In the courses in her major subject she must maintain an average of at least 70, and should she receive a grade below 70 in a Second Year or Advanced course in her major subject she may be required to change her major. She must pass a final examination in her major subject. She must have a reading knowledge of two modern foreign languages (usually French and German), must pass a Hygiene examination, and must fulfill the requirements of the Department of Physical Education.

Every candidate must pursue the following course of studies:

Required Courses:

(1) *English Composition*. This course is supplemented by work in English Speech, consisting of practice speaking and individual conferences which must be completed before the end of the Sophomore year.

(2) *Literature*. English, Greek, Latin, or the English Bible. A student majoring in Greek must take a course in Latin or English approved by the Department of Greek. A student majoring in Latin must take a course in Greek or English approved by the Department of Latin. A student majoring in English must take a course in Greek or Latin approved by the Department of English.

(3) *Science*. Biology, Chemistry, Geology, or Physics. A student majoring in one of the sciences must substitute for this requirement a course in Archaeology, History, History of Art, Economics, Music, Politics, or Psychology.

(4) *Philosophy*. The History of Philosophic Thought. A student majoring in Philosophy must substitute for this requirement a course in Elementary Greek, Psychology or Mathematics.

Major Subject and Allied Subjects: This consists of six courses and preparation for a final examination. A student must take at least three courses in her major subject (many departments
require four): one First Year course; one or two Second Year courses; one Advanced course. She must take enough courses in allied subjects to bring the total to six. *A Final Examination in the Major Field* must be taken by all candidates for the degree.

**Elective Courses:** Four and one-half courses are chosen freely by the student, the only limitations being the prerequisites of the courses selected.

**Physical Education:** During the first two years in college all students are required to take part in work organized by the Department of Physical Education. No student will be allowed to register for junior year who has not completed the requirement. Special exception may be granted by the Dean of the College in cases of prolonged illness or for transfer students.

**Hygiene:** All students are required to take at the beginning of their second year an examination based upon reading assigned by the College Physician. Students will not be allowed to register for the senior year unless they have satisfactorily passed the examination in Hygiene. This work does not count as any fraction of the total number of courses required for the degree.

**Reading Knowledge of Two Foreign Languages:** This is required of all students. They are generally advised to offer French and German since a knowledge of these languages is useful in the work of all departments; but for French or German (not both) a student may substitute Spanish, Italian, Russian, or some other European language if her choice is approved by the department in which she does her major work. The language examinations may be taken in any autumn or spring after entrance, up to the beginning of the senior year. But no student may take a second examination in the same language in the same academic year unless she satisfies the Dean of the College and the Chairman of the Language Examination Committee that she has made a serious effort to prepare for it. A senior who fails either examination or is conditioned in both in the autumn will not receive her degree the following June. If having passed one examination she is conditioned in the other, she may take a second examination in January. Credit towards the degree is not given to seniors for any course taken in preparation for this examination. Students are urged to fulfill this requirement as early as possible in their college career in order to make use of their knowledge of languages in their other work.

The studies required for the degree may be summarized as follows:

- **English** Composition .................. One course
- Physics, Chemistry, Geology, or Biology. One course
- English, Greek, Latin, or
- the English Bible ....................... One course
- Philosophy ............................ One course
- **Major and Allied Subjects** .......... Six courses
- **Free Electives** ....................... Four and one-half courses.
Advanced Standing. In order to free more time for studies of a
more advanced character, students are permitted to take exami-
nations in certain subjects without attending classes in college.
These subjects are elementary Greek, French, German, Italian,
and Spanish; Trigonometry; and Solid Geometry. Examinations
for advanced standing must be taken not later than the begin-
ning of the junior year unless the student's major department
recommends a later date. Students wishing to take examinations
for advanced standing in subjects other than those listed above
must present requests to the Dean of the College, who will
consult with the Committee on the Curriculum and with the
departments concerned. Students who furnish proof of the pos-
session of a thorough knowledge of French, German, Spanish
or Latin may take (but only during the first three weeks after
entering College) examinations for advanced standing in these
languages.

Co-operation with Neighboring Institutions. Bryn Mawr College
co-operates with the University of Pennsylvania, Haverford Col-
lege, and Swarthmore College in a plan which, while preserving
the individual qualities and complete autonomy of each institu-
tion, provides an efficient and economical service by co-ordinating
the facilities of the four institutions. Full time students of any
of the four may, with the approval of the Dean, take any courses
desired at any of the other three without additional expense.
Full academic credit is granted for such work by the institution
in which the student is enrolled.

Summer School Work. Students desirous of supplementing their
work at Bryn Mawr by taking courses in summer school are
couraged to do so. No credit will ever be given for work in
which the student has received a grade below C. Students will
not, however, obtain academic credit at Bryn Mawr for work done
in summer school except for the following reasons: 1, if the
credit is needed for the Bryn Mawr A.B. degree (e.g., to make up
credit lost through illness or absence from college); 2, if the course
taken is one which is recommended by the major department as
a part of the plan of major work. A student who needs to secure
credit for work to be done in summer school should first consult
the Dean and secure her preliminary written approval of the
plan, after which the plan must be approved in detail by the
department or departments concerned. Credit given for such
work will be calculated on an hour-for-hour basis.

The Degree of Bachelor of Arts is conferred upon students who
have completed the course of study outlined above. The degree
is awarded cum laude, magna cum laude, and summa cum laude
to students whose numerical average grade on all their courses
is, respectively, 80-84, 85-89, and 90 or above. To students who
have completed honors work in their major subject the degree
is awarded with distinction in that subject.
COURSES OF STUDY
1948-49

Credit is generally given in full-year courses only when the work of both semesters is completed. In certain courses, however, credit may be given for one semester's work, but only with the permission of the Dean of the College and the department concerned. A few courses carry additional credit, indicated by the number "1½". Pre-requisites in other departments than the major course of study are indicated in the description of the individual courses.

The freshman requirement in Physical Education consists of three periods a week throughout the year; for the fall and winter terms one of these periods will be given over to the study of fundamental principles of good movement. The sophomore requirement consists of two periods a week throughout the year. All students
must complete the freshman and sophomore requirements satisfactorily, and must pass the swimming test administered to every new student at the beginning of the year unless she is excused by the college physician. Students unable to pass this test are expected to register for beginning swimming. All classes are open to election by upperclassmen.

The Students' Loan Fund of the Alumnae Association of Bryn Mawr College was founded by the Class of 1890 for the use of students who need to borrow money in order to continue their college work and for the purpose of receiving contributions, no matter how small, from those who are interested in helping students to obtain an education. The fund is managed by the Alumnae Scholarships and Loan Fund Committee.

The committee in administering this money follows a definite policy, designed to serve the best interests of the students concerned. Loans may be used for any purpose approved by the committee, who strongly recommend the borrowing of small sums to relieve undue financial pressure, or to meet special emergencies. As a rule, money is not loaned to freshmen or to students in their first year of graduate work. No student may borrow more than an aggregate amount of $600 during her entire college course.

The terms under which money is loaned are as liberal as is consistent with business-like principles. While the student is in College interest is charged at the rate of one per cent; after the student leaves College the interest rate is two per cent. The entire principal must be repaid within five years from the time the student leaves College at the rate of twenty per cent each year.

Contributions to the Loan Fund may be sent to the Chairman of the Scholarships and Loan Fund Committee, Alumnae Office, The Deanery, Bryn Mawr, Pennsylvania. Students who wish to borrow from the Loan Fund may obtain application blanks for this purpose from the Alumnae Office, which is situated on the second floor of the Deanery.

4. These loans shall be used primarily to enable the exceptional student to continue her studies which otherwise would be prevented through lack of means.

Bryn Mawr College was founded by Dr. Joseph Taylor of Burlington, New Jersey. During his lifetime the site of the College at Bryn Mawr, Pennsylvania, eleven miles west of Philadelphia, was purchased and the buildings were begun. At his death in January, 1880, he left the greater part of his estate for the maintenance of this institution of higher education for women. In 1880 the College was incorporated under the laws of the Commonwealth of Pennsylvania and was invested with the power to confer degrees. In 1883 the Trustees issued a circular of information. In 1884 Dr. James E. Rhoads was elected President of the College and Dr. M. Carey Thomas was elected Dean of the Faculty. Plans were then matured and academic appointments were made. In the autumn of 1885 the College began its first academic year. On the resignation of President Rhoads in 1893 Dean Thomas was elected to the presidency, an office she held till her retirement in 1922. President Marion Edwards Park succeeded President Thomas in 1922 and retired in 1942. President Katharine Elizabeth McBride took office on July 1, 1942.

The Graduate School of Bryn Mawr College gives advanced instruction and fosters research in the fields of ancient and modern languages and literatures, art and archaeology, mathematics and the natural sciences, the social sciences, philosophy and psychology, and education. The College offers special opportunities to its graduate students to investigate problems in small seminaries under the personal direction of members of the faculty. It has been the policy of the Trustees to provide in every fully organized department for graduate as well as undergraduate study.

Bryn Mawr College confers the degrees of Bachelor of Arts, Master of Arts, Master of Social Service, and Doctor of Philosophy.

ADMISSION

The Graduate School is open to qualified graduates in liberal arts courses of colleges or universities of acknowledged standing. Application for admission, to be made to the Dean of the Graduate School, should be accompanied by a copy of the student’s full academic record and by letters from the Dean and from two or more professors of the applicant’s undergraduate college. Admission to graduate courses is under the jurisdiction of the various departments which may, at their discretion, require students whose preparation is insufficient to pursue certain introductory courses before being enrolled in a graduate course. Admission to the Graduate School does not automatically qualify a student to become a candidate for an advanced degree. Students whose courses of study meet the prerequisites may on application to the Graduate Committee be enrolled as candidates for the Degrees of Master of Arts, Master of Social Service, or Doctor of Philosophy.

Men as well as women are admitted to the Graduate School and are accepted as candidates for the Degrees of Master of Arts, Master of Social Service, and Doctor of Philosophy.

Graduate Record Examination. The Bryn Mawr Graduate School recognizes as contributory evidence of the qualifications of a student for admission a record of attainment in the Graduate Record Examination as prepared and administered by the Carnegie Foundation for the Advancement of Teaching. This examination is a convenient method by which a student may supplement transcript records. Applicants for admission to the Graduate School who wish to take the examination should apply directly to the Graduate Record Examination, 437 West 59th Street, New York 19, N. Y., where full information may be secured and arrangements for taking the test may be made. There is a fee of $3.00.
RESIDENCE AND EXPENSES

On entrance to the College every graduate student must register immediately at the office of the Dean of the Graduate School. (For registration of courses, see pages 30-31.)

Holders of resident fellowships and scholarships are expected to live in the Graduate Center which consists of a residence hall and two small apartments close by. Other graduate students may live in the Graduate Center if rooms are available. Students not in residence are expected to make arrangements satisfactory to the College. With the exception of four double rooms, all rooms in the Graduate Center are single. They are fully furnished except for rugs, curtains, and towels; which the student is expected to provide.

Application for a room should be made as early as possible. A room-contract, which will be sent on request, must be signed and returned with the registration fee of ten dollars to the Dean of the Graduate School. The amount of this fee will be deducted from the residence fee. The fee will not be refunded under any circumstances. A student in residence or a new student who cancels her reservation after September first prevents some other student from obtaining accommodation and consequently admission to the College. Therefore unless a student sends notice of withdrawal in writing to the Dean of the Graduate School before September first, she is responsible for that portion of the residence charge which the College loses by reason of her withdrawal, whether she fails to occupy the room at all or vacates it during the year. Appropriate reduction or remission is made for that portion of the residence fee which represents reduced expense to the College for food; a further remission or reduction is made if the College is able to reassign the student's room to some other student not previously in residence. The student herself is not entitled to dispose of the room she leaves vacant. In case of absence from the College extending over six weeks or more, owing to illness, there will be a proportionate reduction in the charge for the cost of food.

The charge for residence (room and board) for graduate students is $750 a year, payable $450 in the first semester and $300 in the second semester.

The residence halls are closed during the Christmas vacation but accommodations in the neighborhood can usually be secured by graduate students who wish to continue their work. During the spring vacation one hall of residence is kept open and graduate students may occupy rooms in it as a fixed rate. Any student remaining in Bryn Mawr or nearby and not in the College or in her own home for all or part of a vacation must make arrangements satisfactory to the Dean of the Graduate School.
The College reserves the right to exclude at any time students whose conduct or academic standing renders them undesirable members of the college community. In such cases fees due or paid in advance will not be refunded or remitted in whole or in part; fellowships and scholarships will be cancelled.

The College reserves the right, if parents cannot be reached, to make decisions concerning emergency operations or other matters of health in regard to the students.

The tuition fee for graduate students is four hundred dollars a year, payable one half on registration and the other half at the beginning of the second semester. For students registered for less than full-time work the fees are as follows:

For one graduate course or seminary, or one unit of independent work ........................................... $150
For one undergraduate course ........................................... 175
(Candidates for the degree of Master of Arts or Master of Social Service are charged $150 for an undergraduate course which is taken in partial fulfilment of the requirements for that degree.)

Fees for auditors are the same as for students registered in courses for credit.

Students in the departments of Physics, Chemistry, Geology, Biology, and Psychology, whose laboratory or field work is done in connection with a graduate course or an advanced undergraduate course that may be counted for an advanced degree, are charged a laboratory fee of $10 a semester for each course, the maximum fee charged not to exceed $25. The fee for laboratory work done in connection with a first or second year undergraduate course is $15 a semester.

All students taking courses which require field work in the Department of Social Economy and Social Research are charged a laboratory fee of $10 a semester for each course taken. This fee covers a part of the expenses of field supervision. In addition students are required to meet their travelling and incidental expenses while working in the field during the academic year and vacations.

The graduation fee for Doctors of Philosophy, Masters of Arts, and Masters of Social Service is $20.00.

The Office of the Recorder will supply on request one transcript of the record of each graduate student free of charge. For additional transcripts a charge of $1.00 each will be made.

**GRADUATE CLUB**

All resident students in the Graduate School are members of the Graduate Club and non-resident students may become members. The organization of the life of the graduate students in all matters not purely academic or affecting hall management is in the hands of the club. The President of the Graduate Club is a member of the College Council, a non-legislative body which meets periodically to discuss matters concerning the College as a whole. The Council of the Graduate Club considers policies relating particularly to the Graduate School.
HEALTH

Every entering resident graduate student is required to file at the office of the Dean of the Graduate School, on a blank to be secured from the Dean of the Graduate School, a report of a recent medical examination, filled out and signed by a physician.

Every graduate student whether resident or non-resident must file a physician's certificate stating that she has been vaccinated against smallpox during the year before entrance to the Graduate School and that she exhibited a typical or immune reaction to this vaccination. Students who do not certify to vaccination will be vaccinated by the College Physician and charged a fee of two dollars. There is no exception to this rule.

There is required on the medical examination blank a statement of immunization against tetanus by toxoid and of evidence of a negative Schick test. If these have not been done the student should arrange to have these immunizations completed before admission to College. A statement to that effect signed by the examining physician must be presented at the time of entrance.

Every resident graduate student must file a certificate stating that her eyes have been examined by an oculist within six months before entrance to the Graduate School. Failure to comply with the above rule entails an examination by one of the college consultants for which the student will be charged as a private patient by the ophthalmologist who makes the examination.

Every resident graduate student has a chest X-ray at the beginning of each year. These X-rays are made with paper plates, and a fee of about two dollars is charged for each. If necessary the paper plate is checked with stereoscopic celluloid films, the fee for which is twenty dollars. Any graduate student who has had a chest X-ray within six months preceding the opening of any year will be excused from this procedure, provided a complete report has been filed with the College before September fifteenth of the year in question.

Every resident graduate student is examined each year by the Physician of the College, with reference to physical development and general health. Any graduate student who at the time of the examination or at any time during the year is not in good health is placed on the health supervision list.

The College Physician is in her office in the college infirmary daily and may be consulted by the students without charge. Specialists practicing in Bryn Mawr and Philadelphia serve as consulting physicians to the College. The fees of the consulting physicians and surgeons and other specialists recommended by the College will be furnished on request. The infirmary is open when college is in session and during the spring vacation. It is closed during the Christmas vacation.

[ 22 ]
The residence charge paid by each resident graduate student entitles her to free consultation with the College Physicians and to treatment in the college dispensary. It also entitles her to be cared for in the infirmary for seven days (not necessarily consecutive) during the year and to attendance by the College Physicians during this time and to nursing, provided her illness is not contagious and is not sufficiently serious to require the services of a special nurse. The fee for each day in the infirmary after the seven-day period is six dollars. In case of contagious disease the student must meet or share the expense of special nursing.

Non-resident graduate students may, if they so desire, pay a non-resident infirmary fee of five dollars which entitles them to a medical examination by the College Physician and to dispensary care. Non-resident students may also take the opportunity to have a paper plate chest X-ray at a fee of about two dollars when the annual college X-ray survey is made in the autumn.
THE LIBRARY

The Library of Bryn Mawr College contains over 203,000 volumes and approximately 12,000 pamphlets. Nine hundred periodicals and serial publications in English, French, German, Italian, Spanish, and Swedish are currently received. The basic collection of books is contained in the M. Carey Thomas Library. The seminary rooms of each department contain books needed for graduate study. Dalton Hall contains the departmental libraries in Biology, Mathematics, and Physics; Park Hall the departmental libraries in Chemistry and Geology.

The privilege of drawing books from any of these collections (with the exception of those books that are on reserve) is granted to all registered students. There is free access to the stacks. The library is open daily, except Sunday, from 8 A.M. to 10 P.M. and on Sunday from 9 A.M. to 10 P.M.

Students have the privilege of using the Library at Haverford College. The Bryn Mawr catalogue includes duplicate "author cards" of books at Haverford and facilitates the exchange of books between the two institutions.

OTHER LIBRARY FACILITIES

The Union Library Catalogue in the Fine Arts Building of the University of Pennsylvania makes possible the easy location of books to be found in any of about one hundred and sixty cooperating libraries in the Philadelphia metropolitan area. This catalogue contains a record of about 3,500,000 titles. The Philadelphia Bibliographical Center and Union Library Catalogue endeavors to assist research workers in bibliographical problems which fall outside the scope of any individual library.

The University of Pennsylvania libraries, main, departmental, and special, contain approximately 1,135,000 bound volumes and 230,500 pamphlets. Notable among the special collections are the Henry C. Lea Library of Medieval History and the Horace Howard Furness Memorial Library of Shakespeareana. There are also large special collections in Romance literature and philology; in classical literature and philology; in Semitic languages; in early American drama; in archaeology, anthropology, and other fields. The University libraries receive jointly over twenty-five hundred periodicals and several thousand doctoral dissertations annually.

The Philadelphia area is rich in other important libraries. The Historical Society of Pennsylvania possesses extensive collections of manuscripts dealing with both the colonial and national periods, including transcripts of important documentary material from English archives, local records, both American and English, and a great number of special collections. The Library Company of
Philadelphia houses extensive collections of European and American books, pamphlets, periodicals, and society publications in many fields; American history is a major interest. It also includes the Loganian Library, a printed catalogue of which is available. The Free Library of Philadelphia has extensive collections of government publications, and special collections in art, music, law, etc. The American Philosophical Society is rich in important historical manuscripts, pamphlets, and publications of learned societies, etc. The Philadelphia Commercial Museum contains a large library and extensive exhibits pertaining to trade, industry, and geography. Also to be mentioned are the libraries of the Franklin Institute, the Academy of Natural Sciences, the College of Physicians, Swarthmore College, and Temple University. Historical societies in the vicinity of Philadelphia contain collections useful for research in fields other than those of merely local interest.
THE DEGREES OF MASTER OF ARTS AND DOCTOR OF PHILOSOPHY

Bryn Mawr College awards the degrees of Master of Arts, Doctor of Philosophy, and Master of Social Service. Pamphlets containing full information about the degrees of Master of Arts and Doctor of Philosophy may be obtained on request from the Office of the Dean of the Graduate School. For the requirements for the degree of Master of Social Service see page 54 of this Calendar.

THE DEGREE OF MASTER OF ARTS

The degree represents the completion of a coordinated program of graduate work which, for a well prepared candidate, requires a minimum of a full year of graduate study. Work for the degree may be spread over two or three academic years which need not be in succession but must be included in a five-year period. Only courses taken at Bryn Mawr College are credited for the degree.

Prerequisites. The prerequisite for the M.A. degree is an A.B. degree or its equivalent from an American college of recognized standing or a degree or certificate of the same standard from a foreign university. The preparation must include such undergraduate work in the candidate's major subject and allied fields as various departments shall require.

Application. The candidate must apply for the degree in the department of the major work and must receive the endorsement of the department for the program of work. The application and the program endorsed by the major department must be submitted to the Dean of the Graduate School not later than December first of the academic year in which the candidate wishes to take the degree.

Language Requirement. A reading knowledge of French and German is in general required of all candidates. For the reading knowledge of one of these languages, certain departments may accept another language or a special technique. The only departments which regularly accept substitutes for French or German are Economics and Politics, Educational Psychology, Geology, Psychology, Social Economy, Spanish. Candidates whose major work is in French or German must offer a reading knowledge of another language.

\[^1\]In general, this term is interpreted to mean colleges of the United States and Canada on the approved list of the Association of American Universities. Graduates of other American and Canadian colleges may, at the request of a department, be admitted to candidacy on probation. At any time after the completion of one semester of graduate work at Bryn Mawr College the Graduate Committee may, on the recommendation of the department, accept the student on probation as a candidate.
A student whose mother tongue is French may offer German and English as languages to meet this requirement. A student whose mother tongue is German may offer French and English. A foreign student whose mother tongue is not French, German or English may offer French or German and English. The requirement in English shall be met by a certificate from the student's major department that her English is adequate or by a special examination given by her department not later than January in the year in which the degree is to be taken. This special regulation for foreign candidates does not prevent a department from refusing admission to any seminary to a student whose language equipment is not satisfactory for that seminary.

The language requirement is met by passing one of the two types of papers, hereafter referred to as the A.B. and the Ph.D. types. (1) A.B. type: a general test of reading at sight and with a dictionary which is given by Bryn Mawr College to candidates for the A.B. degree. (2) Ph.D. type: a test set by the major department in reading at sight and with a dictionary technical material in the candidate's field such as is required of Ph.D. candidates at Bryn Mawr College. Departments vary in the type of paper required.

Examinations in languages and in the techniques which may be substituted for one language will be held three times each year, in October, January, and April. Candidates who are completing the work for the M.A. in June must present themselves for the examinations in the preceding October or earlier. Candidates who try the examinations in October and fail may repeat them in January. No student may receive the M.A. degree in June who has not passed the examinations by the January period. The April examination is open only to students taking more than one year to complete the work for the M.A. and is open to them only during the academic years preceding the year in which the M.A. is to be awarded.

Program of Work. The candidate's program must include three units of work: (1) one seminary or graduate course; (2) a second seminary or supervised unit of graduate work; (3) a third seminary or an undergraduate course recommended by the major department. If undergraduate courses are included in this last unit, they must be supplemented by organized individual work. Under certain circumstances advanced undergraduate courses in science can be counted as seminaries, subject to the approval of the department and the Dean of the Graduate School. It is expected that this program will frequently include study in an allied field. Candidates whose major department conducts a Journal Club are expected to include the Journal Club in their registration.

Special Field. The candidate shall, in consultation with the major department, select a special field for the M.A. paper and the Final Examination. It is expected that this field will normally
relate to one of the seminaries or units of graduate work in the candidate's program.

Final Requirements.

1. Courses. Before the Final Examination period, candidates must have completed to the satisfaction of their instructors the courses registered for the degree. No candidate will be admitted to the Final Examination if a course is reported as unsatisfactory.

2. Paper in the Special Field of the Student’s Major Subject. Every candidate must present a paper in the special field. The paper may take the form of a report on a special piece of investigation carried on throughout the year or during a definite period, or of a problem which is assigned to be completed during a specified limit of time.

3. An Examination. Every candidate must pass a Final Examination which shall test her ability to place the special field in a general background of her major subject.

The Final Examination may not be taken until

(1) the language requirements have been met (by January of the year in which the last full unit for the degree is registered);

(2) the three units have been reported as satisfactory;

(3) the paper in the special field has been accepted.

THE DEGREE OF DOCTOR OF PHILOSOPHY

The course of study for the degree of Doctor of Philosophy at Bryn Mawr College is designed to prepare the candidate for a professional career as a scholar. The course offers the student the opportunity to acquire a broad general background in the chosen fields of knowledge and practice in research in these fields. The degree is awarded after the student’s general knowledge and ability in research have been tested by examination and by a dissertation.

The candidate for the Ph.D. degree should have ability of high order, intellectual curiosity and critical judgment, independence, a broad general education, fundamental training in the major and allied fields and the determination needed to carry through an exacting program.

The general requirements for the Ph.D. degree, to which should be added the specific regulations of the various departments, are:

1. An undergraduate preparation in major and allied fields which is satisfactory to the departments concerned and to the Graduate Committee.

2. A course of study requiring a minimum, which will usually be exceeded, of three full years of graduate work in major and
allied fields; two of these years, or for holders of the A.B. degree from Bryn Mawr College one, must be spent in the Graduate School of Bryn Mawr College. Candidates are strongly advised to complete at least seven units of graduate work including five graduate courses; there are, however, no formal course requirements for students who have been accepted as candidates for the degree.

3. The acceptance of the student as a candidate by the Director of her work, by members of her major department, and by the Graduate Committee.

4. A reading knowledge of French and German, tested by a written examination in the translation of French and German texts in the field of the major subject.

5. A satisfactory Preliminary Examination in the candidate’s major and allied fields. This examination is intended to test the candidate’s general knowledge of the fields rather than familiarity with particular courses.

6. The preparation of a dissertation judged to be a contribution worthy of publication. The dissertation must represent independent investigation in the field covered by the major subject. It must contain new material, results or interpretations.

7. A satisfactory Final Examination in the special field of the major subject in which the dissertation has been written.

8. The publication of the dissertation in whole or in part.
COURSES OF STUDY
1948-1949

Graduate courses are offered in the Departments of Biology, Chemistry, Classical Archaeology, Comparative Philology and Linguistics, Economics and Politics, Educational Psychology, English, French, Geology, German, Greek, History, History of Art, Italian, Latin, Mathematics, Music, Philosophy, Physics, Psychology, Social Economy and Social Research, and Spanish.

All undergraduate and graduate courses of the College are open to properly qualified graduate students. Only advanced and elective and a few second year undergraduate courses are described in this calendar. For the complete undergraduate program see the Calendar of Undergraduate Courses.

Graduate and undergraduate courses at the University of Pennsylvania are also available for graduate students of Bryn Mawr College. By a reciprocal arrangement with the University full-time graduate students of Bryn Mawr College are admitted without tuition charge to courses at the University for which they are qualified.

Three units of graduate work, each planned to take a third of the student's time, constitute a full program, and not more than three such courses may be elected by a student. The units of graduate work are of two types:

1. The graduate course or seminar, described under the departmental announcements.

2. An independent unit of graduate work, equivalent to a graduate course or seminar, planned and examined by an instructor but carried on independently by the student. Such work may consist of reading with assigned reports, research with results submitted, or a combination of both.

The prerequisites for graduate courses, approximately twenty semester hours of undergraduate work in the subject, are established by the various departments. In special cases, with the approval of the department concerned, work in related subjects of equivalent value may be accepted.

It is the practice of most departments to vary the graduate courses and seminars from year to year so that a candidate for the degree of Doctor of Philosophy may pursue the work for several successive years. In special cases the announced order may be changed to suit the needs of students.

In many departments the instructors and graduate students meet from time to time in a Journal Club to discuss recent publications in their field of study. Students will be notified by their respective departments of arrangements for the Journal Clubs.
Every graduate student must register her courses at the Office of the Dean of the Graduate School within two weeks after entering the College. Permission to make any change in registration must be received from the Dean of the Graduate School.

Approved major and allied subjects for all departments are listed in the printed Regulations for the Degrees of Master of Arts and Doctor of Philosophy.

The Plan for Coordination in the Teaching of the Sciences offers special training in borderline subjects. A gift from the Carnegie Corporation enables the College to award scholarships to qualified students in such fields as biophysics, geophysics, and geochemistry. As such work demands a thorough knowledge of the fundamentals of at least two sciences, it is often impossible for students to include all the desired courses in four undergraduate years; these scholarships are intended primarily to provide for an additional year (mainly in the Undergraduate School) so that the student may be ready, at the end of five years, to begin graduate work in her chosen correlated fields. In addition to the sum allotted to scholarships part of the annual income from the Carnegie fund is set aside for special courses in related subjects. These courses vary from year to year with the needs and interests of the students in science.

Undergraduate courses in each department are numbered according to the following system:

This department is under the joint direction of the professors in charge of philological work in the language departments. The degree of Master of Arts is not offered in this department. For the degree of Doctor of Philosophy Comparative Philology and Linguistics may be offered as an allied subject but not as a major subject. Graduate students in the language departments, if so directed by the department of major work, may take any of the courses listed below and count them as a part of their philology in the major department. Undergraduate preparation entitling a student
to do graduate work in any of the language departments will entitle her to work in this department.

The following seminars and graduate courses meeting two hours weekly are offered from time to time by Dr. Mezger:

Sanskrit (one semester).

Sounds and forms of Sanskrit are studied on a comparative basis.

After a general introduction to linguistic science, the relations of the principal languages of the Indo-European group will be studied with respect to sounds, inflection, syntax and word formation.

Old and Middle Welsh (one semester).

Comparative grammar. Reading of the Mabinogion.

The program leading to the degree of Master of Social Service includes four semesters and a ten-week summer session between the first and second years. The program is designed to prepare students for work in the various social services and offers three major areas of concentration—social casework, community organization and social research. In general, candidates for the M.S.S. degree are required to take History of Social Welfare, Physical and Psychological Development of the Individual and Introduction to Social Research during the first semester of their first year and Legislation for Social Security, Problems of Physical and Mental Disease and Casework I during the second semester of their first year, and Social Research during the first semester of their second year. FELLOWSHIPS AND SCHOLARSHIPS

APPLICATION

Applications for resident fellowships and scholarships should be made to the Dean of the Graduate School and must be filed not later than March first preceding the academic year for which they are desired. Blanks are forwarded to all applicants by the Dean. Awards are announced each year on April first. Original papers and photographs, sent by applicants in support of their applications, can be returned only if postage is enclosed for that purpose, or specific instructions are given for return by express. Testimonials and letters from professors and instructors are filed for reference.

DUTIES OF RESIDENT FELLOWS AND SCHOLARS

Resident fellows and scholars are expected to live in the Graduate Center, to attend official functions of the College, and to assist in the conduct of examinations. Holders of fellowships are expected to give about an hour and a half a week to special work assigned by their departments, and are not permitted to teach or to undertake any other duties in addition to their college work. Holders of scholarships may, with the approval of the Dean of the Graduate School, make their own arrangements to do a limited amount of paid work. Resident fellows and scholars must pay the usual fees and charges (see pages 19-21).

TRAVELLING FELLOWSHIPS

The Bryn Mawr European Fellowship, value $500, founded in 1889, is awarded annually to a member of the graduating class, to be applied toward the expenses of one year's study at some foreign university. For the present, it may be held in an American university. The holder of this fellowship receives in addition an Elizabeth S. Shippen Scholarship, value $200.

The Mary Elizabeth Garrett European Fellowship, value $1000, founded by Miss Garrett of Baltimore, is awarded annually for excellence in scholarship to a graduate student at Bryn Mawr College who is a candidate for the degree of Doctor of Philosophy at Bryn Mawr College. It is to be applied to the expenses of one year's study or research abroad, or, in special cases, in the United States.

The Fanny Bullock Workman Fellowship, value $1200, for a year of study or research abroad was established in 1927 by bequest of Fanny Bullock Workman and by gift of her husband, Dr. W. Hunter Workman. It is awarded to a candidate for the degree of Doctor of Philosophy at Bryn Mawr College who could not have the advantages of such a year without assistance. At the discretion of the Faculty, the fellowship for any one year may be divided between two students, or the same student may hold the fellowship for more than one year.
The Anna Ottendorfer Memorial Research Fellowship, value $1000, in German and Teutonic Philology, founded in 1907 by Mrs. Anna Woerishoffer of New York City in memory of her mother, is to be applied to the expenses of study and residence for one year at some German university. It is awarded annually to a candidate who has completed at least one year of graduate study at Bryn Mawr College, on the basis of evidence regarding her ability to conduct independent investigations in the fields of Teutonic Philology or German. The choice of a university is determined by the holder's preference subject to the approval of the Faculty.

The Ella Riegel Fellowship or Scholarship in Classical Archaeology was founded in 1937 by bequest of Ella Riegel. It is awarded on the recommendation of the Department of Classical Archaeology and only to advanced students in this subject. It is given for study abroad but may, at the discretion of the department, be used at Bryn Mawr College.

Resident Fellowships

Twenty Resident Fellowships, value $1250 each, are offered annually in Biology, Chemistry, Classical Archaeology, Economics and Politics (the Justus C. Strawbridge Fellowship), Educational Psychology, English, Geology, German, Greek, History, History of Art, Latin, Mathematics, Philosophy, Physics, Psychology, Romance Languages (two fellowships), and Social Economy (two Carola Woerishoffer Memorial Fellowships). They are open for competition to American and Canadian students who are graduates of any college of good standing, and have completed at least one full year of graduate work after obtaining their first degree or have obtained the Master's degree.

Fellows who continue their studies at the College after the expiration of their fellowships may, by a vote of the Directors, receive the rank of Fellows by Courtesy.

The Helen Schaeffer Huff Memorial Research Fellowship. This fellowship is awarded for a year of research work in Physics or Chemistry at Bryn Mawr College. Candidates must be women who have demonstrated their ability for research. If other qualifications are equal among a number of candidates, preference will be given to a woman whose field of research overlaps the fields of Chemistry and Physics. This fellowship is normally awarded to a post-doctoral candidate to enable her to continue her research program. In such cases the stipend will be $1600. In exceptional cases, candidates engaged in important research who have not completed the work for the doctorate will be considered. For such students the stipend will be smaller, the amount to be determined on the basis of the candidate's qualifications.

The Helen Schaeffer Huff Memorial Research Fellow has no duties except those connected with her own research, but she may arrange with the department in which she is working to do a small
amount of teaching if she so desires. The holder of this fellowship may, if she wishes, live in the Graduate Center, the graduate residence hall of Bryn Mawr College.

Scholarships for Foreign Women

By special action of the Directors, five resident scholarships of $1150 each are offered in 1948-49 and in 1949-50 to qualified foreign students. A supplementary award of $500 has been granted by The English-Speaking Union to the British recipient of one of these scholarships.

Special Foreign Scholarships for French, German, Italian and Spanish have been established, with the cooperation of the Institute of International Education, for countries whose languages form part of the Bryn Mawr curriculum. Under this arrangement, Bryn Mawr College gives board, lodging, and tuition to the scholars and asks them to devote four or five hours a week to supervised teaching or other assistance in the department.

The Special Scholarship for French has been named by the Board of Directors of Bryn Mawr College in memory of Marcelle Pardé who was a member of the French Department of Bryn Mawr College between 1919 and 1929, and at the time of her death in the German prison camp at Ravensbrück was the Directrice de la Lycée de Jeunes Filles at Dijon.

Resident Graduate Scholarships

Twenty-two Resident Graduate Scholarships, value $650 each, are offered annually in open competition to students who are graduates of colleges of good standing.

In rare cases applicants for these scholarships may, on the basis of financial need, be given a supplementary grant not to exceed $200. Applicants for such grants must fill out a special form giving a report on their financial status. Application should be made by March first.

Lillia Babbitt Hyde Foundation Scholarships in science and in pre-medical studies are open to students in both graduate and undergraduate schools. They will first be awarded in 1948-49.

Fellowships and Scholarships Under the Plan for Coordination in the Teaching of the Sciences

Three Scholarships of the value of $700 each are offered to qualified students who have had undergraduate training in two or more of the natural sciences and who wish to continue study in fields such as Biochemistry, Biophysics, Crystallography, Geochemistry, Geophysics or Psychophysics.

Three Fellowships of the value of $1250 each are offered to candidates in the same fields who, in addition to undergraduate training, have had at least a year of graduate work in science.

These Scholars and Fellows will pay the regular tuition fee of $400 a year and laboratory fees up to $25 a semester. For residence in the Graduate Center an additional $750 will be charged.
NON-RESIDENT GRADUATE SCHOLARSHIPS

Six Non-Resident Tuition Scholarships, value $400 each, are offered annually to graduate students whose homes are in the vicinity of the College.

It is open to graduates of any college of good standing, preferably to advanced students and candidates for the degree of Doctor of Philosophy, who, from either training or experience, have knowledge of methods and techniques in social investigation.

GRADUATE PRIZE

The Susan B. Anthony Memorial Prize, value $500, commemorating the great work of Susan B. Anthony for women, was founded by her friend, Anna Howard Shaw, and her niece, Lucy E. Anthony. It is offered every two years to a graduate student at Bryn Mawr College who has published or submitted in final form for publication the best study dealing with the industrial, social, economic, or political position of women in the past, present, or future. The award is made by a committee of which the President of the College is chairman.

EMMY NOETHER FELLOWSHIP

The Emmy Noether Fellowship in Mathematics was founded by gifts from many donors in memory of Emmy Noether who came to Bryn Mawr College from Germany in 1935 and who died April 14, 1935. It is open to women in the United States and in foreign countries who are advanced graduate students of Mathematics. It is awarded by the Department of Mathematics in Bryn Mawr College, and may be used, subject to the approval of the Department, at any institution in the United States or in a foreign country.
STUDENTS' LOAN FUND

The Students' Loan Fund of the Alumnae Association of Bryn Mawr College was founded by the Class of 1890 for the use of students who need to borrow money in order to continue their college work and for the purpose of receiving contributions, no matter how small, from those who are interested in helping students to obtain an education. The fund is managed by the Alumnae Scholarships and Loan Fund Committee.

The committee in administering this money follows a definite policy, designed to serve the best interests of the students concerned. Loans may be used for any purpose approved by the committee, who strongly recommend the borrowing of small sums to relieve undue financial pressure, or to meet special emergencies. As a rule, money is not loaned to students in their first year of graduate work.

The terms under which money is loaned are as liberal as is consistent with business-like principles. While the student is in College interest is charged at the rate of one per cent; after the student leaves College the interest rate is two per cent. The entire principal must be repaid within five years from the time the student leaves College at the rate of twenty per cent each year.

Contributions to the Loan Fund may be sent to the Chairman of the Scholarships and Loan Fund Committee, Alumnae Office, The Deanery, Bryn Mawr, Pennsylvania. Students who wish to borrow from the Loan Fund may obtain application blanks for this purpose from the Alumnae Office.

Mary Hill Swope Loan Fund

This fund was established June 1, 1945 by a gift of Mrs. Gerard Swope (Mary Hill, A.B. 1896) under the following conditions:

To assist in the education of young women irrespective of color or creed attending Bryn Mawr College, the income of the fund to be loaned to students in the following manner:

1. The following order of preference shall be followed in awarding such loans:
   A. To students coming from New Jersey.
   B. To students coming from Missouri.
   C. To students coming from any other location who have had not less than one year of residence at the College.

2. The loans in the above order of preference, and in the following manner, shall be awarded by the President of Bryn Mawr College, or by a Committee appointed by her from time to time.
3. Applicants for loans shall be considered not only from the standpoint of academic attainment and financial need, but also from the standpoint of character and personal qualifications for deriving the greatest good from a continuation of their studies.

4. These loans shall be used primarily to enable the exceptional student to continue her studies which otherwise would be prevented through lack of means.

5. In the awarding of the loans, the recipient should understand that if in after years she is in a position to do so, she is to repay to the income account of the Loan Fund the amount so loaned to her, with or without interest. It is to be understood that this is entirely a moral obligation upon the recipient.

**Bertha Goldstein Memorial Loan Fund**

The Bertha Goldstein Memorial Loan Fund, established in honor of Bertha Goldstein, A.B. 1938 and M.A. 1939, is a revolving fund from which, upon recommendation of the Department of Social Economy, a limited number of loans may be made to graduate students of Social Economy. Loans are made without interest and must be repaid within five years.

**THE BUREAU OF RECOMMENDATIONS**

The College conducts a Bureau of Recommendations for alumnae, students, and former students. This bureau offers an employment service for permanent, temporary, and part-time positions; and a vocational service for the student body, which includes vocational tests, assistance in choosing a vocation, and the presentation of a series of conferences and lectures. It also acts as a clearing house for letters of recommendation for those who have registered with the bureau. These letters will be sent, upon request, to prospective employers and other agencies.

BRYN MAWR COLLEGE
BRYN MAWR, PENNSYLVANIA
M. Carey Thomas Library and center of the *Carola Woerishoffer* Department of Social Economy and Social Research
FOREWORD

Bryn Mawr College was founded by Dr. Joseph Taylor of Burlington, New Jersey. During his lifetime the site of the College at Bryn Mawr, Pennsylvania, twelve miles west of Philadelphia, was purchased and the buildings were begun. At his death in January, 1880, he left the greater part of his estate for the maintenance of this institution of higher education for women. In 1880 the College was incorporated under the laws of the Commonwealth of Pennsylvania and was invested with the power to confer degrees. In 1883 the Trustees issued a circular of information. In 1884 Dr. James E. Rhoads was elected President of the College and Dr. M. Carey Thomas was elected Dean of the Faculty. Plans were then matured and academic appointments were made. In the autumn of 1885 the College began its first academic year. On the resignation of President Rhoads in 1893 Dean Thomas was elected to the presidency, an office she held till her retirement in 1922. President Marion Edwards Park succeeded President Thomas in 1922 and retired in 1942. President Katharine Elizabeth McBride took office on July 1, 1942.

Bryn Mawr College is situated in one of the suburbs of Philadelphia in beautiful surroundings, with quiet and space for leisure and sports, and convenient access to music, theater, museums and the varied cultural interests of cosmopolitan urban life. The college libraries, lectures and concerts are open to all graduate students.

CAROLA WOERISHOFFER DEPARTMENT
OF
SOCIAL ECONOMY AND SOCIAL RESEARCH

The Carola Woerishoffer Graduate Department of Social Economy and Social Research was opened in the autumn of 1915 in order to afford women an opportunity to obtain an advanced scientific education in Social Economy which should compare favorably with the best preparation in any profession. It is known as the Carola Woerishoffer Graduate Department in order that the name of Carola Woerishoffer, who devoted her life to social service and industrial relations, may be associated in a fitting and lasting way with Bryn Mawr College which she so generously aided.

From its inception the curriculum of the Department has been guided by the principles of maintaining a close interrelationship between the applied and the theoretical; of preparation for social service founded upon a broad knowledge of the social sciences and the development of social research techniques as a basis for social policy and practice.

In pursuance of these broad objectives, the Department has maintained several types of programs leading toward different degrees. The programs for the M.A. and Ph.D. are for students who are primarily interested in theory and intensive research in a chosen special area. The curriculum of studies includes sociological and social theory, labor relations, industrial organization, and research in industrial and social conditions.

The Department also offers an integrated program of study and field-work practice for students who wish to prepare themselves for professional work in public and private social services. The Department is a charter member of the American Association of Schools of Social Work. For a number of years the Department granted professional Certificates to students who had completed the required graduate courses for social work. In response to the growing recognition of social work as a profession, the degree of Master of Social Service was substituted for the Certificate in 1947.

The program for the professional degree of M.S.S. is designed to equip the graduate to assume the responsibilities of dealing with
individuals and groups, and to provide a basic knowledge of social institutions and social welfare programs as dynamic responses to human needs in a changing society. The curriculum is planned to give an understanding of the fundamental principles underlying all branches of the profession as well as to develop the skills of social work practice in the fields of social casework, medical social work, community organization, social administration, and social research.
ADMISSION

The Graduate Department of Social Economy is open to qualified graduates in liberal arts courses of colleges or universities of recognized standing. Application for admission, to be made to the Secretary of the Department, should be accompanied by a copy of the student’s full academic record and by letters from the Dean and from two or more professors of the applicant’s undergraduate college. The Department may, at its discretion, require students whose preparation is insufficient to pursue certain introductory courses before being enrolled in a graduate course. Admission to the Graduate School does not automatically qualify a student to become a candidate for an advanced degree. Students whose courses of study meet the prerequisites may on application to the Graduate Committee be enrolled as candidates for the degrees of Master of Arts, Master of Social Service, or Doctor of Philosophy.

Men as well as women are admitted to the Graduate School and are accepted as candidates for the degrees of Master of Arts, Master of Social Service, and Doctor of Philosophy.

Transfer Credit

A maximum of three units of graduate credit from an accredited institution will be accepted for the M.S.S. degree. No transfer credit will be given until after the candidate has completed satisfactorily a semester at Bryn Mawr. All candidates must spend at least one full year at Bryn Mawr.

No transfer credit is accepted for the M.A. degree. For the Ph.D. degree, candidates must be in residence in the Graduate School at Bryn Mawr at least two years (or one year for Bryn Mawr graduates). Part of the work for the Ph.D. may be done at other institutions.

Graduate Record Examination. The Bryn Mawr Graduate School recognizes as contributory evidence of the qualifications of a student for admission a record of attainment in the Graduate Record Examination as prepared and administered by the Carnegie Foundation for the Advancement of Teaching. This examination is a convenient method by which a student may supplement transcript records. Applicants for admission to the Graduate School who wish to take the examination should apply directly to the Graduate Record Examination, 437 West 59th Street, New York 19, N. Y., where full information may be secured and arrangements for taking the test may be made. There is a fee of $3.00.
RESIDENCE AND EXPENSES

On entrance to the College every graduate student must register immediately at the office of the Dean of the Graduate School. (For registration of courses, see pages 24ff.)

Holders of resident fellowships and scholarships are expected to live in the Graduate Hall of Residence. Other graduate students may live there if a room is available. Students not in residence are expected to make arrangements satisfactory to the College. With a few exceptions, every student in the Graduate Hall has a separate room. The rooms are fully furnished except for rugs, curtains, and towels, which the student is expected to provide. There are also three small apartments with cooking facilities close to the Graduate Hall. Students who live in these apartments and do not take their meals in the Hall will be given an adjustment in their residence fees.

Application for a room should be made as early as possible. A room-contract, which will be sent on request, must be signed and returned with the registration fee of ten dollars to the Dean of the Graduate School. The amount of this fee will be deducted from the residence fee. The fee will not be refunded under any circumstances. A student in residence or a new student who cancels her reservation after September first prevents some other student from obtaining accommodation and consequently admission to the College. Therefore unless a student sends notice of withdrawal in writing to the Dean of the Graduate School before September first, she is responsible for that portion of the residence charge which the College loses by reason of her withdrawal, whether she fails to occupy the room at all or vacates it during the year. Appropriate reduction or remission is made for that portion of the residence fee which represents reduced expense to the College for food; a further remission or reduction is made if the College is able to reassign the student's room to some other student not previously in residence. The student herself is not entitled to dispose of the room she leaves vacant. In case of absence from the College extending over six weeks or more, owing to illness, there will be a proportionate reduction in the charge for the cost of food.
The charge for residence (room and board) for graduate students is $750 a year payable $450 in the first semester and $300 in the second semester.

The residence halls are closed during the Christmas vacation but accommodations in the neighborhood can usually be secured by graduate students who wish to continue their work. During the spring vacation one of the residence halls is open and students may occupy rooms at a fixed rate. Any student remaining in Bryn Mawr or nearby and not in the College or in her own home for all or part of a vacation must make arrangements satisfactory to the Dean of the Graduate School.

The College reserves the right to exclude at any time students whose conduct or academic standing renders them undesirable members of the college community. In such cases fees due or paid in advance will not be refunded or remitted in whole or in part; fellowships and scholarships will be cancelled.

The College reserves the right, if parents cannot be reached, to make decisions concerning emergency operations or other matters of health in regard to the students.

The tuition fee for graduate students is $400 a year, payable one half on registration and the other half at the beginning of the second semester. For students registered for less than full-time work the fees are as follows:

For one graduate course or seminary, or one unit of independent work ........................................... $150

For one undergraduate course .............................. 175

(Candidates for the degree of Master of Arts or Master of Social Service are charged $150 for an undergraduate course which is taken in partial fulfilment of the requirements for that degree.)

All students taking courses which require field work in the Department of Social Economy and Social Research are charged a laboratory fee of $10 a semester for each course taken. This fee covers a part of the expenses of field supervision. In addition, students are required to meet their travelling and incidental expenses while working in the field during the academic year and vacations.

The graduation fee for Doctors of Philosophy, Masters of Arts and Masters of Social Service is $20.
The Office of the Recorder will supply on request one transcript of the record of each graduate student free of charge. For additional transcripts a charge of $1.00 each will be made.

Tuition fee (not counting laboratory fees) ..................... $400
Residence ....................................................... 750

Total .............................................................. $1150

Students whose fees are not paid before November first in the first semester and before March first in the second will not be permitted to continue in residence or to attend their classes. No reduction of the tuition fee will be made on account of absence or dismissal or for any other reason.

**GRADUATE CLUB**

All resident students in the Graduate School are members of the Graduate Club and non-resident students may become members. The organization of the life of the graduate students in all matters not purely academic or affecting hall management is in the hands of the club. The President of the Graduate Club is a member of the College Council, a non-legislative body which meets periodically to discuss matters concerning the College as a whole. The Council of the Graduate Club considers policies relating particularly to the Graduate School.
HEALTH

Every entering resident graduate student is required to file at the office of the Dean of the Graduate School, on a blank to be secured from the Dean of the Graduate School, a report of a recent medical examination, filled out and signed by a physician.

Every graduate student, non-resident and resident, must file a physician's certificate stating that she has been vaccinated against smallpox during the year before entrance to the Graduate School and that she exhibited a typical or immune reaction to this vaccination. Students who do not certify to vaccination will be vaccinated by the College Physician and charged a fee of five dollars. There is no exception to this rule.

Every resident graduate student must file a certificate stating that her eyes have been examined by an oculist within six months before entrance to the Graduate School. Failure to comply with the above rule entails an examination by one of the college consultants for which the student will be charged as a private patient by the ophthalmologist who makes the examination.

Every resident graduate student has a chest X-ray at the beginning of each year. These X-rays are made with paper plates, and a fee of about two dollars is charged for each. If necessary the paper plate is checked with stereoscopic celluloid films, the fee for which is twenty dollars. Any graduate student who has had a chest X-ray within six months preceding the opening of any year will be excused from this procedure, provided a complete report has been filed with the College before September fifteenth of the year in question.

Every resident graduate student is examined each year by the Physician of the College, with reference to physical development, strength of heart and lungs, and general health. Any graduate student who at the time of the examination or at any time during the year is not in good health is placed on the health supervision list.

The College Physician is in her office in the college infirmary daily and may be consulted by the students without charge. Specialists practising in Bryn Mawr and Philadelphia serve as
consulting physicians to the College. The fees of the consulting physicians and surgeons and other specialists recommended by the College will be furnished on request. The infirmary is open when college is in session and during the spring vacation. It is closed during the Christmas vacation.

Non-resident graduate students may, if they so desire, pay a non-resident infirmary fee of five dollars which entitles them to a medical examination by the College Physician and to dispensary care. Non-resident students may also take the opportunity to have a paper plate chest X-ray at a fee of about two dollars when the annual college X-ray survey is made in the autumn.
The Library of Bryn Mawr College contains 203,000 volumes and over 11,000 pamphlets. Seven hundred periodicals and serial publications in English, French, German, Italian, Spanish, and Swedish are currently received. The basic collection is contained in the M. Carey Thomas Library. The seminary and reading rooms of the Social Economy Department contain a wide assortment of books and periodicals relating to the social sciences.

The privilege of drawing books from any of these collections (with the exception of those books that are on reserve) is granted to all registered students. There is free access to the stacks. The library is open daily, except Sunday, from 8 A. M. to 10 P. M. and on Sunday from 9 A. M. to 10 P. M.

In addition to the Bryn Mawr library facilities, the Union Library Catalogue in the Fine Arts Building of the University of Pennsylvania makes possible the easy location of books to be found in any of the more than one hundred and fifty cooperating libraries in the Philadelphia metropolitan area. This catalogue contains a record of about 3,500,000 titles. The Philadelphia Bibliographical Center and Union Library Catalogue endeavors to assist research workers in bibliographical problems which fall outside the scope of any individual library.
DEGREES

For qualified students of the Graduate Department of Social Economy Bryn Mawr College offers three degrees—Master of Social Service, Master of Arts, and Doctor of Philosophy.

MASTER OF SOCIAL SERVICE

The program leading to the degree of Master of Social Service includes four semesters and a ten-week summer session between the first and second years. The program is designed to prepare students for work in the various social services and offers three major areas of concentration—social casework, community organization and social research. The degree represents the completion of a coordinated program of courses and field-work, with different arrangements in accordance with the student's choice of major field of concentration.

Prerequisites. The prerequisite for the M.S.S. degree is an A.B. degree or its equivalent from an American college of recognized standing, or a degree or certificate of the same standard from a foreign university. An undergraduate major in one of the social sciences is usually required although in exceptional cases this requirement is waived. There are no language requirements for the M.S.S. degree.

Program of Work. In general, all beginning students follow a basic program during the first year, with some opportunity for differentiation during the second semester. In their second year programs will differ more widely, according to areas of concentration.

All candidates for the M.S.S. degree spend the first semester of their first year in class work. During the second semester, two days a week are devoted to courses and three days to field practice in casework. During the first year summer session, students majoring in casework spend four days each week in field practice.

1In general, this term is interpreted to mean colleges of the United States and Canada on the approved list of the Association of American Universities. Graduates of other American and Canadian colleges may be admitted to candidacy on probation. At any time after the completion of one semester of graduate work at Bryn Mawr College the Graduate Committee may, on the recommendation of the department, accept the student on probation as a candidate.

[20]
and one day in courses. Those carrying other majors spend an equivalent time with an agency or institution which will provide experience related to their major interests. During the second year, students majoring in casework devote two days a week to courses and three days to field practice; others devote their full time to courses of study and research, supplemented by some field observation.

Requirements for Degree. Candidates for the M.S.S. degree must have completed a minimum of six units, including designated field-work, and specified non-credit lectures. Candidates must prepare a Master's paper and pass a Final Examination which will test their ability to place their special fields in the general background of their majors.

MASTER OF ARTS

The degree represents the completion of a co-ordinated program of three graduate units which, for a well prepared candidate, requires a minimum of a full year of graduate study. Work for the degree may be spread over two or three academic years which need not be in succession but must be included in a five-year period. Only courses taken at Bryn Mawr College are credited for the degree.

Prerequisites. The prerequisite for the M.A. degree is an A.B. degree or its equivalent from an American college of recognized standing or a degree or certificate of the same standard from a foreign university. The preparation must include such undergraduate work in the candidate's major subject and allied fields as shall be required by the department.

Language Requirements. A reading knowledge of French and German is in general required of all candidates. Students in Social Economy may substitute statistics or Spanish for one of these languages. Students whose native tongue is either French or German may offer English as a substitute for either French or German, whichever is not the native language. Foreign students whose native language is not French or German may offer English as a substitute for either French or German.

The language requirement is met by passing the general test of reading at sight and with a dictionary which is given by Bryn Mawr College to candidates for the A.B. degree. Examinations in languages and in statistical techniques which may be substituted for
one language will be held each year within three weeks after the opening of college, and candidates must present themselves for examination at this time. For candidates who fail, and for members of the Graduate School who expect to be candidates for the M.A. degree in a later year, a second examination will be held in January. No student may receive the M.A. degree in the following June who has not passed these examinations by the mid-year examination period.

Program of Work. The candidate’s program must include three units of work: (1) one seminary or graduate course; (2) a second seminary or supervised unit of graduate work; (3) a third seminary or an undergraduate course recommended by the department. It is expected that this program will frequently include study in an allied field. If undergraduate courses are included in this last unit, they must be supplemented by organized individual work.

Requirements for Degree. The candidate shall, in consultation with the department, select a special field and write an M.A. paper which will normally relate to one of the seminars or units of graduate work in the candidate’s program. Every candidate must pass a Final Examination which shall test her ability to place the special field in a general background of her major subject. The Final Examination may not be taken until (1) the language requirements have been met (by January of the year in which the last full unit for the degree is registered); (2) the three units have been reported as satisfactory; (3) the paper in the special field has been accepted.

DOCTOR OF PHILOSOPHY

The course of study for the degree of Doctor of Philosophy offers the student the opportunity to acquire a broad general background in the chosen fields of knowledge and practice in research in these fields. The degree is awarded after the student’s general knowledge and ability in research have been tested by examination and by a dissertation.

The candidate for the Ph.D. degree should have ability of high order, intellectual curiosity and critical judgment, independence, a broad general education, fundamental training in the major and allied fields, and the determination needed to carry through an exacting program.
The general requirements for the Ph.D. degree are:

1. An undergraduate preparation in major and allied fields which is satisfactory to the Department and to the Graduate Committee.

2. A course of study requiring a minimum, which will usually be exceeded, of three full years of graduate work in major and allied fields; two of these years, or for holders of the A.B. degree from Bryn Mawr College one, must be spent in the Graduate School of Bryn Mawr College. Candidates are strongly advised to complete at least seven units of graduate work including five graduate courses; there are, however, no formal course requirements for students who have been accepted as candidates for the degree.

3. The acceptance of the student as a candidate by the Director of her work, by the Department, and by the Graduate Committee.

4. A reading knowledge of French and German, tested by a written examination in the translation of French and German texts in the field of the major subject.

5. A satisfactory Preliminary Examination in the candidate's major and allied fields. This examination is intended to test the candidate's general knowledge of the fields rather than familiarity with particular courses.

6. The preparation of a dissertation judged to be a contribution worthy of publication. The dissertation must represent independent investigation in the field covered by the major subject. It must contain new material, results or interpretations.

7. A satisfactory Final Examination in the special field of the major subject in which the dissertation has been written.

8. The publication of the dissertation in whole or in part.
COURSES OF STUDY

All undergraduate and graduate courses of the College are open to properly qualified graduate students. Only courses especially pertinent to Sociology and Social Economy are described in this calendar. Every graduate student must register her courses at the Office of the Dean of the Graduate School within two weeks after entering the College. Permission to make any change in registration must be received from the Dean of the Graduate School.

Candidates for the M.A. and the Ph.D. degrees will select those courses which are related to their special fields of interest. In general, candidates for the M.S.S. degree are required to take History of Social Welfare, Physical and Psychological Development of the Individual and Introduction to Social Research during the first semester of their first year and Legislation for Social Security, Problems of Physical and Mental Disease and Casework I during the second semester of their first year, and Social Research during the first semester of their second year. Further requirements are contingent upon the candidate's field of concentration.
