"See-Trou—No Bacon!"

"No eggs this morning, bacon odd, no eggs. When that news first dawned upon the sleepy student body a halef-naked girl, having heard the statement, rushed into the dormitory. A halef-naked girl, having heard the statement, rushed into the dormitory.

Our conclusion about the economic state of hens and hogs will doubtless continue for several days, until we finally settle down to a church service. The tradition of hens and hogs has continued for many years. We are quite in sympathy with the need for economy, but not at the same time.

The day's work was founded by about the unwieldy state of bacon and eggs was to continue until both arteries of food should drop.

Uneven Play, Lack of Teamwork

October 12.—The Varsity hockey team started the season in good form by winning its first game, which was played on Saturday evening against the West Jersey team. The final score was 2 to 1 with Bakerwell scoring for Varsity. Although each player on the team played a fast game, there was a definite lack of the team-work which we are accustomed to see in the first game of the season. This was no doubt due to the fact that each player was not accustomed to each other. We hope that as the season progresses we will find more of this cooperation in our games.

The playing in the first half of the game was lively and with hard ball. The opposing team seemed to be out-scoring our own by a goal to nil. After a few minutes' rest, the second half of the game started. The players seemed to be much more active and quick, angular hits from the side. repeated this week to an even point.

The penalties for overcuts this week were particularly efficient in keeping the West Jersey team away from the Bryn Mawr goal. The Brown team was successful in keeping the West Jersey team away from the Bryn Mawr goal.

The backs, however, were much better in the second half of the game, and the play remained a goal to nil at the end of the field. The Varsity backs were seldom able to get the ball away from the shooting circle, and the shooting circle was seldom left without some defensive effort being made.

The forwards played excellently throughout the game, and the play remained almost entirely at their own end of the field. The Varsity backfield was seldom able to get the ball away from the shooting circle, and the shooting circle was seldom left without some defensive effort being made.

Financial Aid

Word has been received from the National Youth Administration that assistance will be available to enable the College to give employment to a limited number of undergraduate students on a part-time basis. Work has already been arranged for in Dalton Hall for the various departments, in the Psychological Laboratory, in the Library, and in the Alumnae Office. Any student who has made any contribution to the college expenses this year should apply at once to Dean Manning.

Players Club Elections, Plans Are Announced

The resignation of Varsity Dramatics and Players Club, announced last spring, has already gone into effect with the recent elections of officers and new members. There is now only one organization, Players Club, whose officers compose the Varsity Dramatic Board. Edith Rose, '27, was elected president at the recent meeting and Julia Grant, '36, business manager. Other members of the board, which is to decide all issues affecting the club, are: acting, Gertrude Laugh, '30; dancing, Ethel Mann, '31; construction, Sylvia Turner; singing, Barbara Colbron, '37; scenery, Olga Miller, '25, and costumes, Phoebe Satter, '32.

This winter's plans are dominated at the meeting when it was proposed and voted that Papers Club manage a Lantern Night with the Cast and Bella of Harvard College in the production of a three-act play to be given if possible. The first-week-end in February is to be the opening date. Further plans will be announced later. It was further proposed that, in the interest of the Lanterns, the work of the organization be left behind and discussion be started of a regular meeting should be planned for at least once a month.

New members who have been elected to this organization include: Helen Page, '38, Louise Dickey, '27; Ann Fred, '32; Julia Grant, '36; Fanny Scott; '31, Gertrude taught, '31; Ethel Mann, '36; Mary Banks, '31; Alice Stanoff, '31, and Sylvia Wright, '32.

Freshman Week Biggest Success Of Any Year

Continued from Page One

The program this year was much the same as it has been previously. For the last two years the time has been used by a day-a-system which has proved much more satisfactory. The non-resident freshmen are asked to come for their inter-nations on Wednesday, and the halls are open every evening. That night when everything is still very strange and hectic, parties are given in each hall. On Friday begin the momentous interviews, with the long wait outside Miss Park's and Mrs. Manning's office. Getting one's courses has always been risky, chiefly because one almost invariably walks into the Dean's office with one fact in mind and out again with a totally different list on paper.

The Self-Government meeting should be planned for after consultation with the club as a Friday evening leads to that frantic center half, whizzed through the circle. Friday evening, the last day of Lantern Night, was a very happy end to a very successful season. In the Alumnae Office. Any student who has made any contribution to the college expenses this year should apply at once to Dean Manning.

A Good Place to Have Sunday Dinner

The Brass Platter Inn

Managed by
Paula Brown

Lunches: Tea Dinners
231 E. Montgomery Avenue
Near Lower Merion High School
Ardmore, Pa.

For Reservation Call
Ardmore 1112

Homemade Candies

Local, fresh vegetables, and meats are used, and are prepared so as to bring out their distinctive flavor. The result is a menu which is simple, yet rich in taste. The diners are satisfied with these dishes, which are a reflection of the inn's philosophy: to serve good food in a pleasant atmosphere. The inn offers a variety of options catering to different tastes and preferences, including vegetarian and gluten-free dishes. The Brass Platter Inn is an exceptional choice for those seeking a satisfying dining experience in Ardmore.
Relation of Students to Self-Gov Explained

Late last spring, Mill Park spoke to the students about her understanding of the relation of self-government to the student body as a whole. Her remarks were so pertinent that they are reprinted below so that all the students, but more especially the freshmen, may profit by them.

"At intervals I hear either from those who come under self-government regulations or from officers elected to carry out those regulations or from the great mass of students who are neither cũppers nor officers a kind of comment on the regulations which makes them seem the all-important part of the system of government at Bryn Mawr, or rather that they are the only part of the system visible to the naked eye of the senior as well as the freshman. The regulations allow us to stay out until such a time; to change our major, and if they are superfluous, they make us living away from home and in a conservative community and in a city suburb. They want us to be able to work at a professional job standing by and at definite hours, a rather demanding routine, not physical as much as mental. They had to consider two units, as all decisions: so, the individual must have the maximum of liberty, the community the minimum of friction. A compromise between the two always had to be reached. To be prudent, certain obvious problems have to be solved, every gas can suffer if there is too much disturbance and confusion in the place where she lives or works; every one can suffer from the foolish demand for routine, not physical but mental. They had to come up with the place with which she is connected: the young and the foolish suffer from the many dances interspersed in their quizes. The college taught me if is not interpreted by its fanatic fringe, not by its intelligence.

The interesting thing about Bryn..."

Fencing Election

President Thomas announces the election of Julia Grant, '88, as Captain for this year.

The annual Fencing Election was held yesterday. The majority of the members of the opening and closing committee voted for Julia Grant, '88, as Captain for this year. The election was held in the Physical Laboratory.

Thomas Award Goes To Doctor P. R. Sabin

Continued from Page One

Daly to train students for further scientific work. Dr. Sabin's original contributions to medical science include discovery of the origin of the lymphatic, studies of the brain and of the development of the red and white corpuscles, and discoveries concerning the functions of the magnesium in the blood stream.
What big Bill Tilden says about smoking Camels is worth any smoker’s attention. “I’ve got to keep in top physical condition,” says the 45-year-old Mr. of Ten Pennant Men, the mild cigarette. “They don’t get my wind or upset my nerves. I’ve smoked Camels for as long as I can remember and I’m glad I have.” And other tennis stars... Lester Stoeckel, George Lott, and Bruce Barnes... Big Bill Tilden says about smoking Camels. So run to Camels. You’ll like their mildness too!
