Outlines Change Effected.
Status of Labor Party

In the War

Denby, May 14—"There is a desire to make the war a real whole country," stated the Right Honourable Balfour, in a speech on The British Labor Party in the War. After giving a brief outline of the history of the party, she discussed its present status in the government and the structural changes in the regulation of industry which have been brought about by the war.

Under the Ministry of Labor, the organization first important was the compulsory trade unionism. The organization is composed of fifty per cent of the organized employers and two-thirds of the actual labor which is appointed by the Labor Conference. They have with the problems of the exchange of employees, the system of drafting and the machinery of the workers. Another organization to the Advisory Committee on production, which investigates all industries for more opportunities of economy and speed.

The best example of this desire to cooperate with the industry is the formation of the National Board of Trade. The first recognition of national control of the war was the establishment of the War Office, and the training of industries for more opportunities of economy and speed.

Women's Engineering Courses Are Offered

Stevens Institute of Technology in New York has opened a course in engineering and management for women.

First Aid Classes Prepared for Amateur

First Aid In divers criscs, "First Aid under the Ministry of Labor, was a project of the Libraries of Mrs. Isaac Hutt, Mr. Richard Lloyd, of Haverton, has left five to Bryn Mawr.

Mathematics Relate
Symmetry Concepts
To Different Fields

Symmetry is a fundamental concept in mathematics, physics, and chemistry. It is the property of an object or system that remains unchanged under certain transformations. Symmetry concepts are used in various fields to analyze and understand complex systems.

Princeton and Beer
Add Gaiety to First Horseshow

Specially Contributed by
Bryn Mawr

Princeton, N.J., May 12—Madison Ride was the scene today of the first Horseshow College Horseshoe.

The contest was for the best team of four from the University of Pennsylvania.

Players to Give
Writing Club Works

The class in play writing, taught by Mr. John Janssen, will present a program of two monologues and one act play on Saturday, May 11.

Collection of Curious and Ancient Herbal

To Conclude Exhibitions in Rare Book Room

Specially Contributed by Mary Louise Tower

The Rare Book Room Committee of the Library has selected for its last exhibition of the year a collection of rare books which have been donated to the library by various individuals and organizations.

Production Proves
Disappointing in Lack Of Enthusiasm

By Barbara Kaufman, '41

"Patience" leads Skillfully Played.

In Performance

Jubilee Producers have had mixed results during the course of the season. Although the leading roles were well played, the fresh enthusiasm which Haverton college's participation should have been welcomed was not there. There was no obvious improvement on last year's "Bryn Mawr performance, but in former years Bryn Mawr alone has done better.

It was not Haverton's fault, but, in former years, its performance, which marked last year's Gilbert and Sullivan performance as an event. We had hoped that the addition of the new blue and white combination would present a fresh start, but apparently something more is needed.

Music, costumes and set possibility for personal impression in a type of play which has now become more popular. Styles are better and freshened with a gleam of freshness and gaiety. Although it was not a fine one, it was certainly a fine one, for the rest her technique was refreshingly efficient. Nancy in particular added a beauty to her role. The cast far outshined the others in acting.

Emery Edgar as Buntsehor and Stimmel as Bauer at their usual good form, but very very good as far as they went. Although Edgar Emery sang poorly, said Dr. Weyl in his address. "If this didn't completely redeemed his character, at least it cleared up the whole show. But, neither brought anything new or give us any hint of something which the library, or the now in the Bibliophiles Externes at Moderna. From the modern point of view, the art of keeping count is decisively odd with regard to medi- cal and physical sciences. The "voetus" as they are called, for various ailments, strike one as both medical and drastic and would seem to be possible only for a dragoon's coach.

Probably the most interesting part of the exhibition was the "baby" section which was displayed at the baby show in Basel in 1856. The collection of infants who have been born with Miss Edith Finch, Leonard Forts, the majority of the herbalists, or even in a "baby" section. In fact, it was not the case.
The present variety of foods may be due to the modernization of food costs permit. No one makes a profit on the inn. The College Inn has never been able to make a profit. The inn provides food for students, faculty, and visitors. The inn has a large variety of foods to accommodate different dietary needs. The inn is a place where people can come together to enjoy a meal and socialize. The inn is an important part of the college community.

Flashing Swords and Backstage Confusion

Mark Colorful Performance of 'Patience'

By Barbara Gimbil, '44

The swords were drawn in a bright blaze, then were assembled that in all but for one they would be
same in leather as yet, we hope that certain Haverford dragon will have no trouble in procuring patches. This stage work is on
mainly hard on those too big for
their breeches.

After the performance we found Patience tearing around, that is, off eating all mustaches and
beards that adorned the many members of the Cap and Bells. Oh! and ah! of recognition, sur
prised gasps and so that—who
wasn’t homeless from all sides.

As grand finale, Spencer Stuart, a blond Haverford stage follower, guided a piece of stage apparatus up—all the way. Yes, he hung about fifteen feet above the stage, saved from looking like one of our anthropoidal ectoderm by a lovely spring suit. All spring!

A SUMMER BUSINESS COURSE
IN BRYN MAWR

July 6th Through August 28th
(nine a.m. to twelve noon)

Typing, Filing, Switchboard, Office Procedure

Business Machines, Business Correspondence

TUTION $60.00

"Take it from me... it's the real thing"

*How many times can a given telephone be lifted and dropped back in its "cradle" before it will wear out or break?

This machine—lifting and dropping hour after hour—gives Bell scientists the answer, helps them design sturdy and dependable instruments.

Many such tests are made on all

Of your telephone (on the job)."
Spanish Club Movie Asks for Effective Good Neighbor Policy

Common Room, May 11.—Americans All, the Spanish Club’s movie, made a plea for further communi cation between American youth and their neighbors. The Good Neighbor policy is no longer a phrase; it has become a fact. Its successful continuation depends upon American youth, in both North and South.

While you are of South American and its life, the high Andes, the Aztec ruins, the rich soil, the browned faces, the movie, arranged by the Office of the Coordination of InterAmerican Affairs, deplored the fact that we know little about our 50 million South American neighbors. Settled 400 years ago, Latin America broke the chains of slavery tying it to Spain and Portugal in the early nineteenth century, and still later broke the commodity bonds and high tariffs still tying it to Europe. With the help of United States plans and modern methods of communication, the modern Mexican republic has been united. But there now arises to make a new world, fighting littering and disease, making fullest use of their rich resources, the American youth must lend its aid.

New Evening Software, Attract Bryan Mawr

Gymnasium, May 9.—Following the plastic sculpture of Dr. Weyl’s art exhibition, a new evening software, Attract Bryan Mawr, was presented last evening by Mrs. Harry Wells. The program was produced by the South American Dramatic Group, and included stories on the Incas, Aztecs, and Mayas. The program last from nine to midnight. Of this sum, payments made by the AACA were well matched. Contributions made by the Sylva orchestra played by Jane Smith. Her bat and her partner.

Civvies, Not Uniforms, Attract Bryan Mawr

Gymnasium, May 8.—Following the art exhibition of Dr. Weyl’s art exhibition, a new evening software, Civvies, Not Uniforms, was presented last evening by Mrs. Harry Wells. The program was produced by the South American Dramatic Group, and included stories on the Incas, Aztecs, and Mayas. The program was last from nine to midnight. Of this sum, payments made by the Sylva orchestra played by Jane Smith. Her bat and her partner.

Mathematics Relate Symmetry Concepts

Continued from Page One

number proved unsuccessful. Egyptian craftsman knew 17 hundred different combinations of a lattice, but only 30 were adopted from those that 10 exhausted all possibilities. The proof can be attacked in two ways, a quantitative method and a given catalogue, choice of combinations of linear combinations of these formations. In the other more convenient method, the computer starts with the requirement of an invariant lattice, and the other metric in deter mined, which is met, is not met, and the requirement of the possibilities is reduced to 17.

You Can Prepare Yourself Quickly for a Fashion Career

Our widely approved "Speed-up" Program has been especially designed to meet this emergency need—and to equip you for a fascinating career in the world...fashion...months ahead of time!

HERE'S how our "SPEED-UP" PLAN WORKS:

- First term of nine weeks begins June 29th—ends August 28th.
- Fifteen weeks of store employment beginning September 8th through December 24th...
- Second term of eleven weeks January 4th—ends March 28th.
- Graduation March 28th.

THE COURSE VIRTUALLY PAYS FOR ITSELF

- Two years' work during 13-week store work period.
- $250 for the entire program, which is thus practically self-sustaining.

*ENGLISH TRANSLATION

Joe Philabucks is suggesting to his fellow inmate that, as soon as class is over, they hop in the car and drive down to the campus hangout where they can order a large Pepsi-Cola (not the Peanut-Cola Coorie). That's nice thinking—especially since you can't do that at night.

WHAT DO YOU SAY?

Send us some of your hot new ideas, and we'll publish them, but you'll be ten bucks richer. If we don't, well, we'll send you a rejection slip to add to your collection. Or send your thoughts to College Dept., Pepsi-Cola Co., 4360 Arden Blvd., Los Angeles 11, Cal.
Tennis Team's Skill Defeats Cricket Club

May 15.—The tennis team was on its toes today and it tipped the Philadelphia Cricket Club B Team off the court. The fifth single player was the only Owl who lost. Even that match was almost Bryn Mawr's, a long, hard, three-set battle.

The second-double combination of Captain Chester and Manager Fleet functioned smoothly. Their opponents were Jackson and Shellenberger, All-American hockey players. Shellenberger and her partner were hard hitters and smashed the ball over the net so that it looked, at the outset, as if there was no stopping them. Then Chester, and manager setting down, dealt begins to whiz back and forth. When Chester and Fleet lined up at the net there were two shots that passed them. They were playing the best, tennis seen on varsity courts this year. When they clinched the long-lasting first set, their self-confidence was completely restored. Although their opponents tried to hold them back with a barrage of fast shots, they were no match for Chester and Fleet. The home team was not making any errors and won the second set easily.

Franny Mathias and Nancy Norton, at first and second singles, played their usual steady games. This combination at first-doubles set up an opposition that their opponents could not break down. Franny Mathias beat Mrs. Earnshaw, 7-5, 6-3. Nancy Norton beat Mrs. McDowell, 6-4, 7-5. Louise Johnson beat Nan Eaves, 6-3, 3-6, 6-4. Norton and Mathias beat Earnshaw and McDowell, 7-6, 6-3. Fleet and Chester beat Johnson and Shellenberger, 6-4, 6-1.
