Elizabeth Anne McGeever was granted the new fellowship for study in English. Miss McGeever plans to continue her work in history.
Ave Atque Vale

Each year in these columns we bid Godspeed to the departing Senior class, we laud them and their four years of achievement, we leave them some choice bits of moral and ethical advice to carry away with them from "the ivory tower." 

Sufficient and more worthy moral and ethical advice has been given them at Baccalaureate and Commencement; moreover, they and their achievements cannot be recorded in one short column. Their contribution to the campus, and part in the whole of education is not to be defined. We have felt as they did disappeared from active participation in our activities with the approach of comprehensives; we will fill it with their faces disappear from the line, and when it gets up in the morning it usually takes on the appearance of well-preserved animal skin. As a final admi- nistration, we add those final exercises daily, in fact, Daily California. Make sure you won't make a move without it. Harriet Walden Ward, of New York. Summa cum laude with honors. Nancy Elinor Schwartz, of New York, Summa cum laude. Barbara Ruth Nugent, of Pennsylvania. Cum laude with honors. Rosalind Oates, of Illinois. Albright University, Califor- nia. Cum laude with honors. Nancy Elinor Schwartz, of New York, Summa cum laude. Barbara Ruth Nugent, of Pennsylvania. Cum laude with honors. Rosalind Oates, of Illinois. Albright University, Califor- nia. Cum laude with honors.

The Rufus Jones Chair

The establishment of the Rufus M. Jones Chair in Phys- ics and Religion which has just been approved by the Board of Directors of the College marks the recognition of the great increase of interest on campus in the study of, philosophy and religion. The chair will be held by a mem- ber of the Philosophy Department, who will continue the wonderful work Dr. Jones has done this year in his course on Philosophy and Religion.

It is fitting that this chair should be named in honor of Rufus Jones, not only because fifty-four years as a member of the Bryn Mawr Board of Trustees, Dr. Jones has been a source of inspiration both to the faculty and to those stu- dents who have had the opportunity to work with him for the intense religious interest on campus. The establishment- ment of this chair gives Bryn Mawr the chance to show its appreciation and gratitude to Dr. Jones by continuing the work to which he has devoted so much of his life. The committee for the endorsement of the chair will be taken from the proceeds of the Alumnae Drive, and all contributions will be welcomed. Bryn Mawr is indeed for- tunate to be able to take this step forward in the ad- vancement of religious education.

Getting Down to Fundamentals

THESE PEOPLE ARE TELEPHONE EMPLOYEES, building a telephone system.
Not a real one, it's true, but a table-top replica that illustrates the fundamental problems which management meets every day in planning, financing, developing, and expanding a telephone system such as the one that serves your community.
They raise miniature telephone poles. They string mini­ature telephone lines between homes and stores and the central office. They plan the changes required when a new telephone is installed ... when a subscriber moves ... when additional lines are needed in outlet sections of town. And they keep representative records of the money involved: where it comes from, how it is used, and how repaid.
Such training in the fundamentals of the business, as well as in technical matters, is part and parcel of a tele­phone career. It is background for good management ... good management, by experienced personnel, helps provide you with the best possible telephone service at the lowest possible cost.
